The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard Newman's No 86 formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

o overcast, d drizzling rain, Δ dew.

Provided always that money so subsequently tendered may be taken in payment of the said Promissory Note, but such acceptance of money shall in no way entitle the payer thereof to any right to delivery of the lot or lots in respect whereof the said note was given, or to any of

the rights of a purchaser thereof, or release the payer from liability for any unpaid balance of such notes or from the additional liability for the loss and expenses of such re-sale as provided for in clauses No. 5 and No. 6.

9.—The opium advertised for sale shall be paid for not later than by 3-30 P.M. of the fifteenth day from the day of sale, provided it does not fall on a Saturday; if it falls on a Saturday, the opium must be paid for by 1-30 P.M.; and in case any lots of such opium shall not be so paid for and adjusted, then the cash deposit made under the fifth condition, or any public securities that may have been deposited on account of such lots or chests, shall be forfeited, and the opium shall be disposed of on account of Government at such time and in such manner as the Board of Revenue shall think fit; and the first purchaser shall further be required to make good all expenses and any loss or difference of price between that obtained at the re-sale and the amount at which the opium was first purchased, forfeiting all advantages that may arise from such re-sale, and the liability for the loss or difference of price and expenses shall be in addition to, and wholly independent of, the amount of the deposit so forfeited.

10.—Purchasers taking out certificates or orders for the delivery of opium, after making full payment as above prescribed, shall have the option of naming the number of lots of their purchase, which they may desire to be included in each certificate or order; and it is to be clearly understood that the certificates or orders so taken out shall be considered final, and not afterwards changeable for other certificates or orders authorizing the delivery of single lots, or of a different number of lots or chests, whether more or less, than the number of lots or chests originally required to be included in each certificate or order.

11.—No deposit of public securities under the fifth of the present conditions will be received in this office except from the party recorded as the purchaser in the sale-book, or his authorized agent. The receipt for deposit of public securities will be granted only in the name of such purchaser, and the securities so deposited will be returned when payment in full has been made by the said purchaser or his order.

12.—The officer superintending the sale on the part of the Government is empowered to reject, at his discretion, the bid of any individual, unless such individual shall on demand tender at the time a deposit either in Government of India Notes, Bank of Bengal Receipts, or Government Securities, a sum equal to the amount for which a Promissory Note would otherwise be taken under the fifth of these conditions.

13.—With a view to prevent fictitious biddings designed to obstruct the sale, it is hereby notified that the officer of Government superintending the sale shall be competent, at any time during the sale, to withdraw any unsold lot, and immediately to put it up again for sale at a maximum upset price, diminishing the same gradually until a bid is obtained; and the first *bonâ fide* bidder for a lot after it has been offered for sale in the mode here described shall be held and declared to be the purchaser of the said lot, and the officer of Government superintending the sale shall also be competent to dispose, in the same manner, of as many of the subsequent lots as he may think proper, provided always that no lot shall be sold below the minimum price of Rs. 800 specified in the second of these conditions.

14.—The purchaser of any lot shall have the option of naming and purchasing in immediate succession, at the same price and under the same conditions, any number of lots of the same Agency opium not exceeding altogether twenty-five lots, provided always that there remain a sufficient number of lots of the opium to complete the said twenty-five.

15.—In the event of any dispute or difference touching or concerning any matter or question arising out of the sale of the opium included in this notification, or adjustment of the account thereof, the same shall and may be tried and decided in the High Court of Judicature at Fort William in Bengal.

16.—The following papers will be exhibited for inspection on the day of sale, or may be seen previously to that date by personal application at the Office of the Board of Revenue:—No. 1, certificate of the opium advertised for sale; No. 2, report of the examination of such opium.

17.—The public are hereby informed that in providing the investment of the opium manufactured at the Patna Factory and the opium manufactured at the Ghazeepore Factory for the year 1884-85, the same precautions have been taken as those which have been observed during past years to have the drug procured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the cakes, and to have the due proportion of opium put into each cake. An account of the weight of the drug when packed at the Patna and Ghazeepore Factories, and a statement of the average weight of the chests, indiscriminately taken, for the purpose of comparison, from the despatches on arrival at Calcutta, may be seen on personal application at the Office of the Board of Revenue.

18.—Any further information respecting weight or quality of the opium advertised for sale that may be desired by parties connected with the trade will, as heretofore, be furnished to them on personal application at the Office of the Board of Revenue. But, in accordance with established usage, under no circumstances will the Board of Revenue entertain or recognize any claim to compensation for loss from any alleged deficiency of weight, abstraction of opium, or adulteration of the drug, which may be preferred on reference to chests after the sale and delivery of the opium for shipment.

NOTICE.

The 24th November 1885.—The following draft of rules which the Lieutenant-Governor proposes to make under clauses (*f*) and (*q*) of section 138 of the Bengal Local Self-Government Act, 1885, is published for general information under section 143 of the said Act, and notice is hereby given that the said rules will be taken into consideration on or after the 1st January 1886, when any objections or suggestions which may be made by any person and received before that date will also be considered.

EDUCATION.

GENERAL.

1. Throughout these rules the term "Inspector" includes the Circle Inspector, and a Joint or Assistant Inspector authorized to act on his behalf, and the term "schools under public management" includes all schools in which the course of study conforms to the standards prescribed by the Department of Public Instruction or by the University, and which are aided or inspected by the Department or regularly present pupils at the public examinations held by the Department, or by the University.

SECTION I.—BOARD SCHOOLS.

1. All schools under public management, with the maintenance and management of which a District Board shall be charged, and for the management and maintenance of which it shall become responsible under sections 62 and 63 of the Act, shall be deemed Board Schools. They are divided into three classes,—Middle Schools maintained and managed directly by the Board, Aided Schools, and Primary Schools.

2. Subject to the approval of the Educational Department, and also subject to the rules hereinafter to be prescribed in regard to Aided schools and schools maintained by Union Committees, the administration of Board schools as regards teaching and discipline, the appointment, punishment, and dismissal of masters, the fixing and payment of the masters' salaries, allowances, and pension contributions, and the grant of leave of absence to the masters, shall be conducted by the District or Local Board, or by the Committee of Management, under the general control of the District or Local Board.

3. District Boards shall be liable for the payment of the stipends of Board school teachers under training in institutions provided by Government for that purpose.

4. Board schools shall be liable to periodical inspection and examination by officers of the Educational Department and by the Magistrate of the district.

5. Every member of the District Board, and in cases where the management and maintenance of a school shall have been made over to a Local Board, every member of the Local Board, and in cases where a Committee of Management shall have been appointed, every member of the Committee of Management shall be entitled to be present at such inspections and examinations.

6. The Bills of Board schools shall be passed by the District Board.

SECTION II.—HIGH ENGLISH SCHOOLS.

1. Whenever by order under section 64 of the Act the management and maintenance of a High English school shall have been entrusted to a Joint Committee, the following rules shall be in force.

2. Subject to the approval of the Educational Department, the administration of the school as regards teaching and discipline, the fixing of the monthly, admission, and re-admission fees, to be paid by the pupils, the award of prizes to the pupils, the appointment, punishment, and dismissal of masters, the fixing and payment of the masters' salaries, allowances, and pension contributions, and the grant of leave of absence to the masters shall be conducted by the Joint Committee.

3. No vacations or holidays shall be allowed to the masters and pupils of the school other than those sanctioned by Government.

4. The Joint Committee shall be bound to furnish such reports and returns as shall be from time to time required by the Educational Department and by the authorities of the University of Calcutta.

5. The Joint Committee shall conform to such regulations as the authorities of the University of Calcutta shall from time to time make with regard to the conduct of examinations.

6. The school shall be liable to inspection and examination by the Inspector, the Magistrate of the district, the Principal of any Government College within the Municipality in which the school is situated, and any Fellow of the University of Calcutta. Any report that the Inspector, the Principal of any Government College within the Municipality, or any Fellow of the University of Calcutta shall think fit to make, shall be forwarded in writing to the Joint Committee, and a copy shall at the same time be sent to the Director of Public Instruction.

7. The buildings of the school shall be liable to inspection by any officer of the Public Works Department whom the Government may entrust with this duty. He shall forward his remarks in writing to the District Board, and shall at the same time send a copy of them to the Director of Public Instruction.

SECTION III.—MIDDLE SCHOOLS.

1. All Middle Schools, not being grant-in-aid schools, shall be managed and maintained directly by the District Board.

2. With regard to all such schools, the District Board shall have, within the Board's jurisdiction, the following powers:—

(1) Of deciding where new schools shall be opened and the manner in which accommodation therefor shall be provided.

(2) Of deciding upon the transfer or abolition of existing schools.

(3) Of fixing the class of every such school: the selection to be made from classes recognized by the Educational Department.

(4) Of prescribing the standard of teaching in every such school: the selection to be made from standards recognized by the Educational Department.

(5) Of fixing, subject to such limitations as may be from time to time prescribed by the Education Department, the rate of monthly, admission, and re-admission fees to be paid by pupils in every such school.

SECTION IV.—GRANT-IN-AID SCHOOLS.

1. Nothing contained in this section shall entitle a District Board to interfere in the management of an aided school further than is necessary to ascertain whether the terms of the grant are being complied with.

2. The Lieutenant-Governor shall have power to exempt any school or class of schools from the operation of the rules contained in this section.

3. Whenever under section 63 of the Act funds shall have been made over to a District Board for the management and maintenance of grant-in-aid schools within the district, the District Board shall be charged with and responsible for their distribution in accordance with the following rules.

4. The managers of any school on behalf of which application for a grant is made must appoint a Secretary to conduct their correspondence with the District Board and with the Educational Department.

5. In respect of any school for which application is made, full information must be supplied on the following points in the form prescribed in the grant-in-aid rules sanctioned by the Government of Bengal:—

(*a*) The pecuniary resources—permanent and temporary—on which the school will depend for support.

(*b*) The proposed monthly expenditure in detail.

(*c*) The average number of pupils to be instructed.

(*d*) The persons who will form the Committee of Management.

(*e*) The standard of instruction: the selection to be from standards recognized by the Educational Department.

(*f*) The number and salary of the teachers.

(*g*) The amount of aid sought.

(*h*) The existence of other schools within a distance of six miles.

6. An application for a grant shall be made directly to the District Board. Should the Board refuse to sanction the application either in whole or in part, it shall record its reasons for such refusal. The applicant may then appeal from such refusal to the Inspector, who shall consult the Magistrate, and, if necessary, report the matter through the Director of Public Instruction to the Government for final orders.

7. No grant to a school shall exceed in amount the sums to be expended from private sources, except in special cases under special orders of Government.

8. Grants may be of two kinds—annual and special.

9. No annual grant to a middle school shall exceed one-half of the income guaranteed from private sources.

10. No annual grant to a primary school, a girl's school, a training school, or a special school, shall exceed the full amount of the income guaranteed from private sources.

11. Annual grants shall be sanctioned ordinarily for a period of five years, but the Board may at any time during its currency, for reasons specified in writing, and which shall have reference to the Board's finances, or to the character of the teaching and discipline in the school, or to the general circumstances of education in the district, revise the grant. Against such an order of revision, however, an appeal shall lie to the Inspector, who shall deal with it in the manner specified in Rule No. 6.

12. The sanction to a grant shall be given in a form prescribed by Government.

13. Special grants up to a maximum of half the total expenditure may be given by District Boards towards the cost of furnishing school-houses and providing maps and other school apparatus in consideration of expenditure from private sources incurred in the establishment and equipment of schools, and on condition that the managers undertake to refund the amount of any such grant if the school obtaining it should be abolished within a period of five years.

14. Special grants may be given towards the cost of building school-houses, provided such school-houses are masonry structures.

15. Grants shall not be given to pay off debts for buildings, nor in consideration of former expenditure for building, nor for the maintenance of buildings.

16. Before a building grant is sanctioned by a District Board, the site, plans, estimates, specifications, title and trust deeds must be approved by the Inspector.

17. In the event of a difference of opinion between a District Board and an Inspector with reference to a building grant, the matter shall be referred to the Commissioner through the Magistrate, and if the Commissioner does not concur in the view of the Inspector, to Government through the Director of Public Instruction.

18. Any school to which aid is given by a District Board, together with all its accounts, books and other records shall at all times be open to inspection and examination by any officer appointed by Government for that purpose; and to this end the records and accounts shall be placed in such custody that they shall always be accessible on the visit of any inspecting officer. Such inspection shall have no reference to religious instruction, but only to secular education.

19. Should an Inspecting Officer discover that the instruction or discipline in any school aided by a District Board is not efficient, or that the accounts are not properly kept, or that any of the conditions on which grants are made are not observed, he shall refer the matter to the Magistrate, who may, if he thinks fit, make a representation to the District Board. Should the District Board not comply with his representation, he shall report the fact to Government through the Director of Public Instruction.

20. District Boards shall not be allowed to make a grant to any school, except a school for training teachers, that does not require some fee from all its scholars, without the permission of the Director of Public Instruction. Before giving a grant-in-aid to any school, the District Board shall require the managers of the school to which aid is proposed to be given, to sign an agreement on stamped paper to the effect that they will conduct the school in accordance with the conditions of the grant.

SECTION V.—PRIMARY SCHOOLS.

1. Subject to the powers entrusted to Union Committees by section 112 of the Act, District Boards shall be charged with the duty of maintaining and managing all primary schools under public management within the district, and of determining the rates of stipends or rewards payable to the gurus and pupils of such schools, in accordance with the rules prescribed by the Educational Department.

2. District Boards shall grant rewards to the gurus and pupils of all primary schools within the district on the result of periodical examinations.

3. Such examinations shall be conducted under the supervision of the Deputy Inspector by the Sub-Inspectors and Examiners appointed by the District Board in consultation with the Deputy Inspector, at times to be settled beforehand by the Inspector in consultation with the District Board.

4. All payments and rewards to gurus and pupils to be granted on the result of such examinations shall be sanctioned by the Board on the report of a Sub-Inspector, confirmed by the Deputy Inspector.

5. The District Board shall, in consultation with the Deputy Inspector, make payments to chief gurus and other agents (exclusive of Sub-Inspectors) employed to inspect primary schools within the district.

6. Every District Board may make grants and contributions to primary schools under private management within the district, provided such grants and contributions be in accordance with the rules from time to time prescribed by Government.

7. Should any difference of opinion arise between the District Board and the Deputy Inspector, the matter shall be referred for the decision of the Inspector. Should the District Board be dissatisfied with the decision of the Inspector, the matter shall be referred through the Magistrate to the Commissioner; and if the Commissioner does not concur in the views of the Inspector, to Government through the Director of Public Instruction.

8. Should the District Board be dissatisfied with the decision of the Inspector, it may request him to refer the matter to Government through the Director of Public Instruction.

9. District Boards shall be responsible for the payment of the stipends of primary school teachers under training in institutions provided by Government for this purpose.

SECTION VI.—LOCAL BOARDS.

1. In every case where a District Board shall, under section 101 of the Act, transfer the management and maintenance of any school or schools to a Local Board, the provisions contained in the preceding rules shall be generally applicable to such Local Board: provided that the District Board shall, in all cases, have a general power of control.

SECTION VII.—UNION COMMITTEES.

1. Every primary school under public management maintained by a Union Committee under section 112 of the Act shall be called a Union Committee school.

2. Every Union Committee shall have the power within the Union—

(1) Of determining the places at which Union Committee schools shall be opened.

(2) Of deciding upon the transfer or abolition of existing Union Committee schools.

(3) Of fixing the class of every such school; the selection to be made from classes recognized by the Educational Department.

(4) Of prescribing the standard of instruction in every such school; the selection to be made from standards recognized by the Educational Department.

(5) Of fixing the salary of the guru of every such school and of removing or transferring him within the Union.

(6) Of fixing the rate of monthly, admission, or re-admission fees payable by the pupils of every such school.

3. With reference to section 112 of the Act, by which Union Committees are declared responsible for the transmission to gurus of Union Committee schools for the rewards granted by the District or Local Boards, it shall be the duty of each Union Committee to compel the guru of each such school to attend such examinations and gatherings, and to present his pupils at such examinations and gatherings as shall be from time to time ordered by the District or Local Board or the Deputy Inspector.

4. Every Union Committee school will be subject to periodical inspection and examination by officers of the Educational Department and by the Magistrate of the district.

5. Nothing in these rules shall preclude the establishment and maintenance of primary schools within the Union by private individuals or self-constituted local associations, and the pupils of all such schools shall be entitled to present themselves at all examinations for rewards and grants payable by the District Board to the pupils and gurus of primary schools.

SECTION VIII.—SCHOLARSHIPS.

1. Lower primary scholarships shall be awarded by the District Board in consultation with the Deputy Inspector, and a list of the scholars elected shall be forwarded to the Inspector, who will pass the bills as at present.

2. The lower primary scholarship examination shall be conducted in every district by the Sub-Inspectors under the supervision of the Deputy Inspector.

3. It shall be competent to the District Board, before the award of upper primary and middle scholarships, to make representations to the Inspector in favour of particular schools or tracts which it may deem deserving of special encouragement, on account of their less advanced state, or for other reasons, and the Inspector shall be bound to take such representations into consideration.

4. The District Board shall be furnished every year with an abstract of the results of the upper primary and middle scholarship examinations.

SECTION IX.—FINANCE.

1. For the purpose of the maintenance and management of schools, the Lieutenant-Governor shall every year make over to the District Board the primary allotment of the district, the grant-in-aid allotment for Board schools falling under section IV of these rules, a contribution to the support of those schools to be managed directly by the Boards, and any additional sum that may be granted in support of education under the control of the District Board.

The Inspector shall prepare budget estimates for every High English School within his circle, the management and maintenance of which shall, under section 64 of the Act, be entrusted to a Joint Committee, and shall submit them to the Joint-Committee before the 1st of August in the year immediately preceding that for which the estimates are framed. The approved estimates shall be forwarded to the Director of Public Instruction before the 1st of September.

SECTION X.—RELATION OF DISTRICT BOARDS TO EDUCATIONAL CONTROLLING AGENCIES.

1. All Sub-Inspectors within the district shall submit their diaries to the District Board through the Deputy Inspector, who will forward them with his remarks. They will conduct all examinations for rewards under the orders of the District Board in consultation with the Deputy Inspector.

2. Sub-Inspectors may be degraded or suspended by the District Board, but no Sub-Inspector shall be dismissed without the consent of the Director of Public Instruction. Sub-Inspectors who have been degraded or suspended shall have an appeal through the Magistrate to the Commissioner.

3. Subject to the veto of the Inspector, Sub-Inspectors shall be appointed by the District Board. RESOLUTION REGARDING THE APPOINTMENT OF A COMMITTEE TO ENQUIRE INTO EDUCATIONAL ENDOWMENTS FOUNDED BY MUHAMMADANS IN THESE PROVINCES.

GENERAL DEPARTMENT.—EDUCATION.

Calcutta, the 8th December 1885.

RESOLUTION.

READ again—

A memorial from the National Mahomedan Association on the position and claims of the Mahomedan community in British India.

A letter from the Government of Bengal, No. 481T—G, dated 14th October 1882, to the Government of India, reporting upon the allegations and prayers of the memorial.

The Report of the Education Commission, chapter IX, section 2, on the subject of Mahomedan education.

The letter No. 2285T—G, dated the 25th September 1884, from the Government of Bengal to the Government of India, reviewing the recommendations of the Education Commission on the subject of Mahomedan education.

Read—

The Resolution, dated 15th July 1885, recorded by the Government of India, in the Home Department, in reference to the Memorial of the National Mahomedan Association.

In 1882 the National Mahomedan Association addressed a memorial to His Excellency the Governor-General in Council, calling attention to the

decayed condition of the Mahomedan community, and making suggestions for its improvement. In the letter of 14th October 1882, cited in the preamble, the Lieutenant-Governor discussed the questions raised by the Memorial, and made certain recommendations with reference to the memorialists' prayers so far as they concerned these Provinces. The Memorial was subsequently discussed by the Education Commission, whose proposals regarding the general question of Mahomedan education were considered by the Lieutenant-Governor in the letter of the 25th September 1884 cited in the preamble. In the Resolution of the 15th July 1885, recorded in the Home Department, His Excellency the Governor-General in Council has now reviewed the correspondence referred to above, as well as the similar correspondence which has passed on the subject of the Memorial with other Governments. His Excellency finds that there is a general agreement that, owing to the past inability or unwillingness of the Mahomedan community to take advantage of the State system of education, Mahomedans are at the present time not always able to contend on equal terms with their Hindu fellow-subjects for State employment, or in the liberal professions. Happily, however, there are now not wanting signs of a change of temperament on this subject among the Mahomedan community generally, while some of their leaders have, through the instrumentality of education, reached high positions in the public service and in professional life, and are doing excellent work. Progress is thus being made, and Government is anxious that all that can reasonably be done, having regard to the legitimate claims of other classes, should be done to maintain and stimulate that progress.

2. In the report of the Education Committee, the proposal to give special aid to Mahomedan schools was made, and in the review of that report recorded by this Government, the proposal was favourably received. It has not hitherto been found possible, owing to financial pressure, to do as much as could have been wished in furtherance of the policy which, on this subject, the Lieutenant-Governor has approved; but as funds become available, an effort will be made in that direction. Meanwhile, Sir Rivers Thompson gladly welcomes the proposal which the Government of India, in deference to the wishes of the National Mahomedan Association, now makes in the 19th paragraph of the Resolution cited in the preamble to appoint a Committee to ascertain the extent to which educational endowments have been founded by charitable and public-spirited Mahomedans throughout these Provinces. It is a fact that the progress of education among the Hindu community of Bengal is largely indebted to private liberality; and although among Mahomedans there are fewer wealthy persons than among Hindus, it is probable that the number of those who have devoted money to public purposes, according to their means, are not, comparatively speaking, fewer in one community than in the other. Educational endowments, when of small value, are apt to be overlooked; and when they consist of immoveable property, they are apt to be diverted from the donor's intention. Much good may therefore result from a Committee appointed to enquire in the first place into the number of such educational endowments, their character and the manner in which the proceeds are applied. It may be possible that, when information on these points is collected, administrative arrangements or legislative action may be devised, whereby, in accordance with the wishes of the representatives of the Mahomedan community, the funds of these endowments may be applied more carefully than at present, and more in accordance with the wishes and intentions of the donors.

3. It is stated in the Resolution of the Government of India that Mahomedan endowments are usually of religious or quasi-religious character, and this statement, in the Lieutenant-Governor's opinion, is generally in accordance with the facts in Bengal. With endowments of a religious character, the enquiry which it is now proposed to set on foot will have no concern; but with endowments intended by the founder to be appropriated to educational as well as to purely religious uses, the case may be different. Here the Committee of Enquiry will be entitled to distinguish between the religious and secular aspects of such funds, and ascertain whether the latter aspects are receiving from the trustee of the endowment the attention they deserved.

4. An important matter is the way in which the Committee of Enquiry should proceed to work. No doubt much assistance will be given by District

Officers, and much information will be obtained from the archives of Government to which access will be permitted; but something more than this will be necessary if full information is to be collected. Many, if not most, of the Mahomedan endowments are not brought upon the records of Government, and therefore it will be desirable for the Mahomedan community in each district to take the matter in hand, and from the resources of their local knowledge supplement the defects of the public records. The Lieutenant-Governor therefore desires that in communication with, and acting on the advice of the Committee, the Collector of each district, in which minute enquiries are desirable, should associate with himself the chief Mahomedan gentlemen resident in the district and avail himself of their knowledge in gathering the requisite information. It will be for the National Mahomedan Association, at whose instance the enquiry is being undertaken, to place themselves in communication with their local branches, and to do what in them lies to stimulate their correspondents into activity on this point. The Secretary of the Committee should also visit the chief centres of Mahomedanism in the mofussil, and by his influence and advice help in forming these Sub-Committees, on whose activity the success of this enquiry will mainly depend

5. When the facts regarding the extent and character of the endowments in question have been ascertained, the duty of the Committee will then be to consider how far they point to the necessity for action, executive or legislative, to provide that the endowment funds may be most usefully employed. In considering this point, it is desirable that the Committee should bear in mind that the Government is anxious to hold itself aloof from the management of educational endowments not directly entrusted to its charge by the testator or donor. Should, therefore, the Committee consider, with reference to the facts that may come before them, that a change in the management of individual funds, or a modification of the existing law, is desirable, it is requested that their recommendations will take due regard of the possibility of an extension to educational endowments of the principle of the Act of 1863, whereby competent members of the Mahomedan community are made chargeable with the control of religious endowments.

6. For the purposes, therefore, of carrying into effect the objects stated in the preceding remarks, the Lieutenant-Governor appoints the Hon'ble G. C. Paul, C.I.E., Advocate-General, who has consented to serve, to be President of the Committee, and associates with him as members Mr. Amir Ali, Barrister-at-Law, Nawab Abdul Lutif, Khan Bahadoor, C.I.E., Nawab Mir Mahomed Ally, and Mr. Philip Nolan, C.S.; the last-named gentleman to act as Secretary to the Committee as well as member It is the desire of the Government of India that Committees appointed by Local Governments should communicate with each other in order thereby to assure, as far as practicable, uniformity of action of design. It is desirable, therefore, that the Committee nominated above should place itself in communication with Committees formed in other Provinces.

7. A sum of Rs. 100 per month for the Committee's office establishment and contingencies is sanctioned, and it is requested that the Committee's report be submitted to Government within six months from this date.

By order of the Lieutenant-Governor of Bengal,

A. P. MACDONNELL,

Secretary to the Government of Bengal.

The results of observations at the Alipore Observatory are not rigorously comparable with the registers of former years (at the Park-street Observatory). The barometer is about 3 feet higher at Alipore, and, other things being equal, reads therefore ·003 lower. The diurnal range of temperature is also greater at Alipore, and the mean temperature apparently about 1°·6 lower; and, finally, the thermometer, which furnished the record of temperature at the Surveyor-General's Office during 20 years and upwards, is found to read 0·6 higher than the Kew standard thermometer, which is the standard of reference at the present Observatory.

N.B.—In the monthly abstract for October 1885, read 5·24 inches instead of 3·57 inches as the total rainfall indicated by Beckley's self-registering rain-gauge.

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h, 10h, 16h, and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard Newman's No 16 formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

MEMORANDA.

THE chief features to be deduced from the vital statistics of the principal Municipalities in Bengal for the week ending 21st November 1885, as presented in the statement appended to this memoranda, are the following:—

1. That births and deaths were registered in these Municipalities at the rates, respectively, of 27·6 and 39·1 per 1,000 of population as opposed to 26·5 and 41·6 per 1,000, respectively, during the preceding week ending 14th November, indicating improvement in the registration of births against retrogression in that of deaths.

2. That the highest birth and death-rates were returned by the following Municipalities:—

	Ratio per *mille*.
Naraingunge	62·1
Serampore	47·1
Gya	43·7
Bhagulpore	42·5
Arrah	40·7

Beauleah	39·4
Patna	34·4
Dacca	33·1

Deaths.

Small-pox	...	...
Fever	19·0	20·3
Bowel-complaints	6·7	7·9
Injury	·4	·4
Other causes	9·6	10·5

The above figures indicate that there was an enhancement in the death-rate from cholera with a diminution in those from fever, bowel-complaints and the maladies classed under the head of "Other causes."

4. That, excluding small-pox, from which no death was reported, injury, the casualties from which were nowhere noticeably large, and bowel-complaints, which proved conspicuously fatal only in the Serampore and Patna towns, viz. at the rates of 13·7 and 12·3 per 1,000 of their populations, respectively, the rest of the diseases above specified caused the highest mortality in the following Municipalities:—

Cholera.

	Ratio per *mille*.

* A special census of the Europeans in the Darjiling Municipality was recently taken, as the census of this section of the community, taken in February 1881, was not reliable owing to the Europeans being at a minimum in that month. The number of the natives remains as before, as it was not necessary to re-census them. The ratios have consequently been calculated on the revised population under all heads in the above table, except [illegible] "Age," the ratios under which have been omitted, inasmuch as

The following are the conditions of sale:—

1.—The opium will be sold for exportation by sea only, and no certificate will be granted except to cover such export.

2.—The opium will be ordinarily offered for sale at an upset price of Rs. 800 per chest, and sold to the highest bidder above that price, except under the circumstances for which provision is made by clause 13 of these conditions of sale. The bids must advance by Rs. 5 at a time.

3.—The sale shall commence at the hour of 11 A.M. of the day fixed by previous notification, and shall not be continued after the hour of 5 P.M.; but if at that hour any of the lots advertised for sale shall remain unsold, the sale may, at the discretion of the Board of Revenue, be resumed on the next day following (not being Sunday or a public holiday), at the hour of 11 A.M., and so on until the whole of the remaining lots are disposed of; or, if the whole quantity advertised shall not be sold on the day appointed, the Board of Revenue may dispose of the lots which remain on hand at a future sale.

4.—Each lot shall contain five chests.

5.—A Promissory Note for a sum, calculated according to the scale noted in the margin, shall be taken as a deposit on each lot from the purchaser in the sale-room and before the lot is registered in the sale-book, and all such Promissory Notes shall be redeemed on the part of the purchasers at this Office by Bank of Bengal receipts or by substitution of other public securities of the Government of India, on or before 3-30 P.M. in the afternoon of the fifth day after the sale, provided it does not fall on a Saturday; if it falls on a Saturday, the said notes must be redeemed by 1-30 P.M., or, on the other hand, failing such redemption by the time aforesaid, then the lot or lots for which no Bank of Bengal Receipts or deposit of other public securities as aforesaid shall have been delivered

in, shall be re-sold at such time or times and under such conditions of re-sale as the Board of Revenue shall see fit; and all losses and expenses whatsoever attending such re-sale shall be borne and paid by the defaulters, whilst any profit accruing from such re-sale shall be forfeited to Government.

6.—The said Promissory Notes shall be absolutely payable in any event, and the amount thereof shall be absolutely forfeited upon such default as before mentioned, and the amount thereof shall not go or be credited in reduction of any loss on re-sale or expenses thereby incurred, but shall be recoverable whether such re-sale shall be had or not, or whether there shall be a loss on such re-sale or not.

7.—The Promissory Notes taken on the day of sale under the fifth condition, if remaining unredeemed at 3-30 P.M. of the fifth day following the day of sale, or 1-30 P.M. if the last day falls on a Saturday, will be placed in the hands of the Solicitor to the Government for realization in such manner as to him shall seem fit.

8.—No tender of money, Bank of Bengal Receipts, or public securities, on account of opium upon which the prescribed deposit may not have been made before the prescribed time in clause 5 on the fifth day following the day of sale will be afterwards accepted. Provided always that money so subsequently tendered may be taken in payment of the said Promissory Note, but such acceptance of money shall in no way entitle the payer thereof to any right to delivery of the lot or lots in respect whereof the said note was given, or to any of the rights of a purchaser thereof, or release the payer from liability for any unpaid balance of such notes or from the additional liability for the loss and expenses of such re-sale as provided for in clauses No. 5 and No. 6.

9.—The opium advertised for sale shall be paid for not later than by 3-30 P.M. of the fifteenth day from the day of sale, provided it does not fall on a Saturday; if it falls on a Saturday, the opium must be paid for by 1-30 P.M.; and in case any lots of such opium shall not be so paid for and adjusted, then the cash deposit made under the fifth condition, or any public securities that may have been deposited on account of such lots or chests, shall be forfeited, and the opium shall be disposed of on account of Government at such time and in such manner as the Board of Revenue shall think fit; and the first purchaser shall further be required to make good all expenses and any loss or difference of price between that obtained at the re-sale and the amount at which the opium was first purchased, forfeiting all advantages that may arise from such re-sale, and the liability for the loss or difference of price and expenses shall be in addition to, and wholly independent of, the amount of the deposit so forfeited.

10.—Purchasers taking out certificates or orders for the delivery of opium, after making full payment as above prescribed, shall have the option of naming the number of lots of their purchase, which they may desire to be included in each certificate or order; and it is to be clearly understood that the certificates or orders so taken out shall be considered final, and not afterwards changeable for other certificates or orders authorizing the delivery of single lots, or of a different number of lots or chests, whether more or less, than the number of lots or chests originally required to be included in each certificate or order.

11.—No deposit of public securities under the fifth of the present conditions will be received in this office except from the party recorded as the purchaser in the sale-book, or his authorized agent. The receipt for deposit of public securities will be granted only in the name of such purchaser, and the securities so deposited will be returned when payment in full has been made by the said purchaser or his order.

12.—The officer superintending the sale on the part of the Government is empowered to reject, at his discretion, the bid of any individual, unless such individual shall on demand tender at the time a deposit either in Government of India Notes, Bank of Bengal Receipts, or Government Securities, a sum equal to the amount for which a Promissory Note would otherwise be taken under the fifth of these conditions.

13.—With a view to prevent fictitious biddings designed to obstruct the sale, it is hereby notified that the officer of Government superintending the sale shall be competent, at any time during the sale, to withdraw any unsold lot, and immediately to put it up again for sale at a maximum upset price, diminishing the same gradually until a bid is obtained; and the first *bond fide* bidder for a lot after it has been offered for sale in the mode here described shall be held and declared to be the purchaser of the said lot, and the officer of Government superintending the sale shall also be competent to dispose, in the same manner, of as many of the subsequent lots as he may think proper, provided always that no lot shall be sold below the minimum price of Rs. 800 specified in the second of these conditions.

14.—The purchaser of any lot shall have the option of naming and purchasing in immediate succession, at the same price and under the same conditions, any number of lots of the same Agency opium not exceeding altogether twenty-five lots, provided always that there remain a sufficient number of lots of the opium to complete the said twenty-five.

15.—In the event of any dispute or difference touching or concerning any matter or question arising out of the sale of the opium included in this notification, or adjustment of the account thereof, the same shall and may be tried and decided in the High Court of Judicature at Fort William in Bengal.

16.—The following papers will be exhibited for inspection on the day of sale, or may be seen previously to that date by personal application at the Office of the Board of Revenue:—No. 1, certificate of the opium advertised for sale; No. 2, report of the examination of such opium.

17.—The public are hereby informed that in providing the investment of the opium manufactured at the Patna Factory and the opium manufactured at the Ghazeepore Factory for the

year 1884-85, the same precautions have been taken as those which have been observed during past years to have the drug procured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the cakes, and to have the due proportion of opium put into each cake. An account of the weight of the drug when packed at the Patna and Ghazeepore Factories, and a statement of the average weight of the chests, indiscriminately taken, for the purpose of comparison, from the despatches on arrival at Calcutta, may be seen on personal application at the Office of the Board of Revenue.

18.—Any further information respecting weight or quality of the opium advertised for sale that may be desired by parties connected with the trade will, as heretofore, be furnished to them on personal application at the Office of the Board of Revenue. But, in accordance with established usage, under no circumstances will the Board of Revenue entertain or recognize any claim to compensation for loss from any alleged deficiency of weight, abstraction of opium, or adulteration of the drug, which may be preferred on reference to chests after the sale and delivery of the opium for shipment.

NOTIFICATION.

The 15th December 1885.—It is hereby notified for general information that the Lieutenant-Governor has been pleased to make the following rules under section 138(*a*) of the Bengal Local Self-Government Act III (B.C.) of 1885.

PART I.

ELECTION OF MEMBERS OF UNION COMMITTEES.

Preliminary.

Throughout this and the following Parts the term "Magistrate of the district" shall have the meaning prescribed by section 5 of the Act.

2. Whenever a Union, constituted under section 38 of the Act, comprises two or more villages, the Magistrate of the district shall decide in what manner such Union shall be divided into electoral wards, and the proportional number of members to be returned for each of such wards. Such arrangement shall remain in force in subsequent elections until altered by similar authority. Provided that if it is thought convenient a Union, whether of a single or more villages, may consist of one electoral ward only.

Of the qualification of Voters.

3. Every male person of the full age of twenty-one years, resident at the time of election within the area comprised in a Union, who has, during the year immediately preceding the election of the members of the Committee of such Union, paid one rupee or more on account of road-cess, license-tax or chowkidari-tax, or who is a member of a joint undivided family, which has during such period paid one rupee or more on account of any such cess or taxes, shall be entitled to vote at such election.

Of the qualification of Candidates.

4. Any person qualified under the preceding rule, and who in addition can read and write, shall be qualified as a candidate for any ward in the Union.

Of the manner of holding elections.

5. The Magistrate of the district shall decide at what place or places within the Union and on what date or dates the election of the members of the Union Committee shall be held.

6. The dates fixed for such elections shall be duly notified in all the villages of the Union in such manner as may appear suitable to the Magistrate of the district, and at least fourteen days beforehand; any cost incurred in issuing notices under this rule shall be defrayed from the district fund.

7. Each voter shall vote for the ward in which he ordinarily resides, and for no other. He may vote for as many candidates as there are members to be returned for such ward, but shall not give more than one vote for any single candidate.

8. All persons wishing to vote must be present at the elections. No votes by proxy or in writing shall be received.

9. The Magistrate of the district, or such other officer as the Magistrate of the district may depute for the purpose, shall preside at the election for each Union or portion of a Union.

10. The elections for the different wards in the Union shall be held in succession; the proceedings in every case being commenced by the presiding officer explaining to the assembled voters the nature and objects of the election and the number of members to be returned.

11. The assembled voters of the ward shall be allowed to consult together and elect the necessary number of members in their own manner. They shall report to the presiding officer the names of the persons they have elected, and if such persons are duly qualified, and no objection is raised to the manner in which the election has been conducted, the presiding officer shall declare that they have been duly elected.

12. If the result of the election held under the preceding rule is called in question the presiding officer shall if he thinks it necessary proceed to take a poll, recording the number of votes given for each candidate with his own hand. He shall then and there declare such duly qualified candidates as have a majority of votes to be duly elected.

13. If an equal number of votes is recorded in favour of two or more candidates, all of whom cannot be returned, selection shall be made from such candidates by lot in such manner as the presiding officer shall deem fit, and thereupon a candidate thus selected shall be declared to be duly returned.

14. If at any election held under these rules the number of voters of any ward shall be less than ten per cent. of the total number of house-holders in such ward, the Commissioner may order that the election shall be held again, or may decide that the electors have failed under section 40 of the Act to elect members.

15. Objections regarding the qualifications of candidates and voters shall be summarily, decided by the presiding officer, and such decision shall be final.

16. If any candidate, duly elected under the preceding rules, declines to take office, the unsuccessful candidate, if any, who received the largest number of votes shall be held to have been elected. If there is no second candidate the Commissioner will appoint a member under section 40 of the Act.

17. Except as provided by rules 14 and 15, no election held under these rules shall be invalidated on any ground whatever.

18. The list of duly returned candidates shall be forwarded to the Commissioner of the Division for publication in the *Calcutta Gazette*.

PART II.

ELECTION OF MEMBERS OF LOCAL BOARDS.

Preliminary.

19. When the number of members of a Local Board has been fixed by a notification issued under section 8, the Commissioner, after consultation with the Magistrate of the district, shall decide the number of members who shall be elected for each thannah within the area of such Local Board, and shall issue orders accordingly. Such orders shall be published in the *Calcutta Gazette*, at the district and sub-divisional offices, and at the head-quarters of each of the thannahs in question; and in such other manner as the Commissioner may prescribe.

20. The first election of any Local Board under these rules shall take place at such time, not being more than six months after the Act comes in force in the districts mentioned in the Third Schedule of the Act, and after the date of a notification establishing Local Boards in any other district, as the Lieutenant-Governor shall direct.

Of the Qualification of Electors.

21. Every male person of the full age of twenty-one years, resident within the area under the authority of a Local Board, who is qualified in one of the manners following, that is to say—

(*b*) paid license-tax in respect of a trade, dealing, or industry carried on within such area; or

(*c*) been possessed of a clear annual income from any source of not less than two hundred and forty rupees;

(3) Being a member of a joint undivided family, one of the members of which is qualified to be an elector as in this rule hereinbefore provided, is a graduate or licentiate of any University, or holds a certificate as a pleader or mookhtear, shall be entitled to vote at an election of members of such Local Board.

Of the Registration of Electors.

22. In all districts mentioned in the Third Schedule of this Act, or in which a Local Board may hereafter be established, the members of which are not appointed under section 15 of the Act, the Magistrate of the district shall cause to be prepared for each thannah within the area of a Local Board a register of persons qualified to vote. Such register shall be prepared from assessment lists, from enquiries made by persons specially deputed for the purpose, and in such other manner as may appear expedient. Such register shall, from time to time, be corrected and added to as the Magistrate of the district may direct.

23. At least two months before the date fixed for the election for any thannah, a copy of the register showing the persons qualified to vote for such thannah shall be published at suitable places within that thannah. Copies of all the thannah registers shall also be published at the sub-divisional office.

24. Any person claiming the right to vote may submit to the Magistrate of the district an application in writing for the entry of his name in the register of electors, stating distinctly in what manner he is qualified; and all such applications, if made at least one month before the date fixed for the election, shall be duly enquired into. A notice of the claims thus

made shall be published at the thannah within one week of their presentation to the Magistrate; and all objections made to them and received at least one week before the date fixed for the elections shall be duly considered.

25. All claims to vote, and the objections thereto, shall be considered by the Magistrate of the district, and his decision shall be final.

26. The thannah list as amended, after the hearing and decision of claims and objections, shall be considered to be the final lists of persons entitled to vote at the election, and no person whose name does not appear in the thannah list shall be permitted to vote.

Of the qualification and the nomination of Candidates.

27. Every male person of the full age of twenty-one years, who is qualified in one of the manners following, that is to say—

(1) Is a member of a Union Committee within the area under the authority of the Local Board;

(2) Has during the year immediately preceding the election had his fixed place of abode within the area under the authority of such Local Board; and

(*a*) paid a sum of not less than five rupees on account of road cess in respect of land situated either wholly or in part within the area under the authority of the Local Board;

(*b*) paid a license tax of not less than twenty rupees in respect of a trade dealing or industry carried on within the area under the authority of the Local Board; or

(*c*) been possessed of a clear annual income from any source of not less than one thousand rupees.

(3) Being a member of a joint undivided family, one of the members of which is qualified for election under clause (1), or clause (2) (*a*) or (*b*) of this rule, is a graduate or licentiate of any University, or holds a certificate as a pleader or mookhtear,

shall be qualified for election as a member of the Local Board for any thannah under the authority of such Local Board.

28. Any elector, may for the thannah in which he is qualified to vote, nominate any qualified person as a candidate.

29. The Magistrate of the district shall, at least six weeks before the date fixed for the thannah election, issue notices calling for nominations of candidates. Such notices shall be published at every village within the thannah. All nominations shall be submitted within three weeks from the date of the publication of the notices in question. No names of candidates shall be received after the expiration of such period.

30. The Magistrate of the district shall ascertain whether all of the nominated candidates are duly qualified to take office; his decision on this point shall be final. He shall also, if possible, ascertain whether they are all willing to take office.

31. A list of the candidates who are duly qualified, and who appear to be willing to take office, shall be published at suitable places in the thannah at least one week before the date fixed for the election. No candidate whose name does not appear in such list shall be considered eligible.

Of the manner of holding Elections.

32. The election for each thannah shall be held on such date as may be fixed by the Lieutenant-Governor and notified in the *Calcutta Gazette*.

33. The election for each thannah shall be held at the head-quarters of the thannah, or at such other place within the jurisdiction of the thannah as the Magistrate may fix. The place of election shall be publicly notified at least one month before the date fixed for election and shall be stated in the notice issued under the next rule.

34. The date fixed for the thannah election shall be duly notified at the thannah, and at such other places as may appear suitable, at least one month beforehand.

A vernacular notice in the following form shall also, at least a fortnight before the date fixed for the election, be despatched by post, or by such other mode as may be found convenient, to every elector whose name appears in the register:—

"You are hereby informed that you are registered as a voter for the thannah, and that you will be entitled to vote at the election of members of the Local Board to be held at on the 18 ."

35. An elector duly qualified under Rule 21 shall be entitled to vote for the thannah in which he ordinarily resides, and for no other. He shall be entitled to vote for as many candidates as there are vacancies for such thannah, but shall not give more than one vote for a single candidate.

36. All persons wishing to vote must be present at the election. No votes by proxy or in writing shall be received.

37. The Magistrate of the district, or such other gazetted officer as the Magistrate of the district shall depute for the purpose, shall preside at the election for each thannah.

38. The proceedings shall commence by the presiding officer explaining the nature and objects of the meeting to the assembled voters. He shall then read out the list of candidates, and state the number of vacancies.

39. Each candidate shall then be proposed by one qualified voter, and seconded by another. Subject to the control of the presiding officer on points of order, each candidate

and his proposer and seconder shall be permitted to address the assembled voters on the subject of his candidature. The names of candidates not duly proposed and seconded shall be removed from the list.

40. In the case of the number of the candidates duly proposed and seconded not being greater than the number of vacancies, the presiding officer, if he is satisfied that not less than ten per cent. of the registered voters for the thannah are present, shall at once declare such candidates to be duly elected.

41. If the number of candidates duly proposed and seconded exceeds the number of vacancies, the presiding officer shall proceed to take a poll for each candidate, recording the votes with his own hand.

42. All objections to voters shall, if possible, be summarily decided by the presiding officer after reference to the register. No objections shall be entertained, other than objections arising out of matters subsequent to registration under Rule 26.

43. The presiding officer shall then and there declare such candidates as have a clear majority of votes to be duly elected. Provided that no candidate shall be declared to be duly elected unless at least ten per cent. of the registered voters of the thannah have appeared and recorded their votes.

44. If ten per cent. of the registered voters for the thannah are not present (Rule 40), or have not appeared and recorded their votes (Rule 43), the presiding officer shall report that the electors have failed under section 10 of the Act to elect the number of members for the Local Board fixed for such thannah.

45. In the case of an equal number of votes being recorded in favour of two or more candidates, all of whom cannot be returned, selection shall be made from such candidates by lot in such manner as the presiding officer shall deem fit, and thereupon a candidate thus selected shall be declared to be duly returned.

46. If any candidate, duly elected under the preceding rules, declines to take office, the unsuccessful candidate, if any, who received the largest number of votes shall be held to have been elected. If there is no unsuccessful candidate, a fresh election shall be held to fill the vacancy thus created.

47. In the event of any person being elected for two or more thannahs, such person shall be at liberty to choose which thannah he will represent, and in every other thannah for which the said person has been returned, the result of the election shall be determined under the preceding rule as if no votes had been recorded for him, and if necessary a fresh election will be held.

48. After all the thannah elections have been held, the list of candidates duly elected for the Local Board shall be forwarded to the Commissioner of the Division for publication in the *Calcutta Gazette*.

Miscellaneous.

49. No election shall be invalidated on a point of form, provided that these rules have been substantially obeyed.

50. No election shall be invalidated on account of any irregularity whatever, unless it appears that the irregularity was such as materially to affect the results of the election.

51. No person in the employment or pay of the District or Local Board shall directly or indirectly engage in canvassing for votes, or otherwise assist in the election of any candidate, otherwise than by giving his own vote. Any breach of this rule will render him liable to dismissal.

52. All costs incurred in the preparation of the register of voters, the publication of notices, the holding of elections, or taking any other necessary action under these rules, shall be payable from the District Fund.

PART III.

ELECTION OF MEMBERS OF DISTRICT BOARDS AND TERM OF OFFICE OF MEMBERS OF BOARDS.

Election of Members of District Boards.

A Local Board shall not elect members for the District Board until (*a*) the number of members of the District Board to be elected by such Local Board shall have been fixed by notification under section seven of the Act, and (*b*) the names of the elected and appointed members of the Local Board shall have been published in the *Calcutta Gazette*.

54. Within one month of the publication of the notification referred to in clause (*a*) of the preceding rule, or the notification referred to in clause (*b*) of the same, whichever be later, the Local Board shall at a meeting elect the requisite number of members for the District Board. The names of the candidates shall be submitted at the meeting, and the election shall be made by the majority of votes of the members of a Local Board present at such meeting.

55. In the case of the election or appointment of a Chairman, or the election of a Vice-Chairman, of the Local Board, not having taken effect, the meeting referred to in the preceding rule shall be called by the Magistrate of the district.

56. The names of the persons elected to serve on the District Board shall be forwarded without delay to the Magistrate of the district, who shall ascertain if they are duly qualified and are willing to serve.

57. If any elected candidates decline to take office, the unsuccessful candidates, if any, who received the largest number of votes shall be declared to be duly elected. If there is no unsuccessful candidate, a fresh election shall be held to fill the vacancy thus created.

58. In the event of any person being elected by two or more Local Boards, such person shall have liberty to choose which Local Board he will represent, and as regards every other Local Board for which such person has been returned, the result of the election shall be determined under the preceding rule as if no votes had been recorded for him, and if necessary a fresh election shall be held.

59. The only persons qualified for election as members of the District Board shall be:—(*a*) members of the Local Boards in the district; and (*b*) persons qualified for election as members of any Local Board in the district.

61. Every member of a Local or District Board, who has been elected or appointed by name, shall vacate his office at the end of three years from the date of his election or appointment as such member.

63. If any member of a Local or District Board shall be unable to complete his full term of office, the vacancy caused by his resignation or removal or death shall be filled by the appointment or election, as the case may be, of another person; and the person so appointed or elected shall fill such vacancy for the unexpired remainder of the term for which such member would otherwise have continued in office.

64. *A. Local Boards.*—As soon as possible after the expiry of the term of office of an elected member, mentioned in rules 61 and 62, or after the occurrence of a vacancy among elected members under rule 63, a date for a fresh election shall be fixed by the Lieutenant-Governor, and notified in the *Calcutta Gazette*, and rules 21 to 52 shall apply, as far as may be, to such subsequent elections.

SECTION IV.—GRANT-IN-AID SCHOOLS.

1. Nothing contained in this section shall entitle a District Board to interfere in the management of an aided school further than is necessary to ascertain whether the terms of the grant are being complied with.

Such inspection shall have no reference to religious instruction, but only to secular education.

19. Should an Inspecting Officer discover that the instruction or discipline in any school aided by a District Board is not efficient, or that the accounts are not properly kept, or that any of the conditions on which grants are made are not observed, he shall refer the matter to the Magistrate, who may, if he thinks fit, make a representation to the District Board. Should the District Board not comply with his representation, he shall report the fact to Government through the Director of Public Instruction.

20. District Boards shall not be allowed to make a grant to any school, except a school for training teachers, that does not require some fee from all its scholars, without the permission of the Director of Public Instruction. RESOLUTION ON THE ADMINISTRATION REPORT OF THE CALCUTTA MUNICIPALITY FOR 1884-85.

MUNICIPAL DEPARTMENT.—MUNICIPAL.

Calcutta, the 24th November 1885.

RESOLUTION.

READ—

The Administration Report of the Calcutta Municipality for 1884-85.

Read again—

The Report for 1883-84, and the Resolution recorded upon it.

Although the Chairman's report for the year 1884-85 is dated the 6th July, and the Engineer's report, which forms an appendix to it, is dated the 16th idem, the complete Administration Report was not submitted to Government until the 25th September. The reason assigned for this was the delay in receipt of the Auditor's Report on the Municipal and Police accounts caused by the absence of that officer from Calcutta on duty. These accounts were not received by the Government until October.

2. The working of the Corporation in its more important aspects has been carefully enquired into during the year by the Sanitary Commission appointed under section 28 of the Calcutta Municipal Consolidation Act of 1876,

and has been so thoroughly reviewed, both by this Government and the Government of India in recent letters and resolutions, that the Lieutenant-Governor considers any lengthened discussion here of the same matters unnecessary. In this Resolution he will confine himself to noticing briefly the figures shown by the accounts and some points in the Administration Report not elsewhere disposed of.

3. Twenty-four general meetings were held by the Commissioners during the year, of which 10 were special general meetings, 3 were quarterly, and 6 were special meetings. Of Standing Committees there were 120 meetings, and of Special Committees 22 meetings. The Town Council met 49 times, the Water-supply Extension Committee 9 times, the Bustee and Tank Committee 20 times, the Market Committee 9 times, and the Sanitary Committee 3 times. The total number of attendances at meetings amounted to 2,116 out of 4,520, the maximum number possible.

4. The Town Council are said to have dealt with a large number of matters of varying degrees of importance. Among others were the arrangements made for the repayment of the debentures of 1864, the carrying out of miscellaneous improvements in the town, chiefly consisting of the extension and widening of roads, the steps taken to provide more commodious hackney carriages, presentation of addresses to Lord Ripon on the eve of his departure from India, and to Lord Dufferin on his arrival in Calcutta, provision of additional establishment for extending vaccination operations owing to the prevalence of small-pox, and the permanent appointment of an officer for the inspection of articles of food and drink.

5. At the end of 1883-84 the total debt of the Corporation amounted to—

	Rs.
Debenture loans	80,47,900
Consolidated loan from Government	71,07,195
Total ...	1,51,55,095

Against the debenture loans the Commissioners had a reserve fund of the nominal value of Rs. 25,59,385. During the year they borrowed Rs. 15,00,000 by debentures bearing interest at 5 per cent. for the extension of the drainage and water-works, and a temporary loan of Rs. 5,00,000, without interest, was obtained from Government.

6. The following statement compares the income of the municipality under the three ordinary revenue funds during 1884 85 and 1883-84 :—

	1883-84.	1884-85.
General Fund—	Rs.	Rs.
House-rate	9,72,275	9,99 552
Taxes	4,15,360	4,09,170
Fees	6,288	4,923
Fines and penalties	21,329	25,022
Road Department receipts	37,679	43,134

The expenditure from the General Fund exceeded the receipts by Rs. 2,38,116. This included Rs. 32,498, being an instalment credited to the Reserve Fund on account of 1883-84, which was not paid within that year. The expenditure from the Water-rate Fund exceeded the receipts by Rs. 16,076, and the Lighting-rate Fund also is shown to have had a deficit of Rs. 18,957.

8. There are certain funds not included in the above statements which are maintained for special purposes. The receipts of the *Police-rate Fund* during the year amounted to Rs. 2,85,418, and the disbursements made to the Commissioner of Police amounted to Rs. 2,83,250. Including the opening balance of the year, Rs. 24,622, there remained a sum of Rs. 26,790

in hand at the close of the year. The receipts of the *Jute Ware-house Fund* amounted to Rs. 23,281, 80 per cent. of which, Rs. 18,625, was due to the Commissioner of Police for maintenance of the fire-brigade. After meeting collection and inspection charges, there was a surplus of Rs. 1,031, which was credited to the General Fund. The receipts of the *Hackney Carriage Registration Fund* amounted to Rs. 15,384, out of which Rs. 5,767 were expended on account of establishment and other charges, leaving a surplus of Rs. 12,618. The receipts of the *Cart Registration Fund* amounted to Rs. 72,193, and the charges to Rs. 5,503, leaving a surplus of Rs. 66.690. The *Marcus Legacy Fund* had 4 per cent. Government securities to the value of Rs. 70,000 and a cash balance of Rs. 4,275. The *Chitpore Road Improvement Fund* had a balance of Rs. 11,969 at the commencement of the year. The expenditure for the acquisition of land amounted to Rs. 24,521, thus exceeding the amount at credit by Rs. 11,052, which will probably be made good from the General Fund.

9. The gross demand made by the Bill Department amounted to Rs. 22,59,683, against Rs. 21,93,045 in 1883-84. The outstanding balance on 31st March 1885 was Rs. 63,545, as compared with Rs. 67,240 in the previous year. It is stated that this outstanding balance would have been reduced to Rs. 31,968, had not bills to the amount of Rs. 31,577 been returned by the Collector and Warrant Officer a few days before the end of the last quarter of the year. Of the total demand of the year, the Collector realized 91·03 per cent., against 92·24 per cent. in the previous year. In the Warrant Department the outstandings amounted to Rs. 46,105, against Rs. 44,849 at the end of 1883-84.

10. The receipts under the head of license fees aggregated Rs. 4,85,104, as compared with Rs. 4,94,735 in the previous year, and the decrease is attributed to slackness of trade. Trade and profession licenses are shown to have yielded Rs. 2,64,183; carriage and horse licenses Rs. 99,744; trade refuse fees Rs. 36,944; hackney carriage registration fees Rs. 14,953; and cart registration fees Rs. 72,203.

11. The Corporation were engaged as plantiffs in seven civil suits, of which two had been pending from the previous year. Three suits were decreed in favour of the Corporation, two suits were referred to arbitration, and two suits were pending when the year closed. It was stated in the report for 1883-84 that Baboo Nundo Lal Bose, owner of No 65 Bagbazar Street, applied to the High Court, praying for the issue of a writ of *certiorari* against the Commissioners in the matter of the assessment of his house. But Mr. Justice Pigot held that the High Court had no power to issue such a writ against the Commissioners. Baboo Nundo Lal Bose preferred an appeal from that order, and the Appellate Bench held that the Commissioners had not been guided by the principle laid down in section 104 of the Calcutta Municipal Act. The order of the lower court was reversed, and the *rule nisi* for the *certiorari* against the Commissioners was made absolute. In one case the Commissioners had to defend in the Police Court a charge brought against them for causing a nuisance by filling up a tank with street refuse. The Magistrate, after making a personal inspection of the locality, dismissed the charge on the ground that the Corporation had taken the best means in their power to abate the serious danger to public health caused by the filthy tank. In the criminal courts, 16,590 persons were prosecuted for various offences, against 12,387 in 1883-84. In the License Department the fines imposed amounted to Rs. 5,188, in the Conservancy Department to Rs. 4,780, and in the Health Officer's Department to Rs. 2,321. Prosecutions under the Vaccination Act were for the first time instituted in the Police Court: the number of summons issued was 353, and the amount of fines imposed was Rs. 32 only.

12. The year 1884 was characterized by drought and abnormally high temperature in the early months; a temperature of 103·7°F was registered about the middle of April. The rainfall was below the average, viz. 62·61 inches against 66 38, the average of the preceding 48 years. During the first four months hardly any rain fell. There was a rise in prices of food, but there was no distress in the town.

13. The Health Officer's report has been drawn up for the calendar year 1884 instead of for the official year 1884-85. This change was recommended

by the Army Sanitary Commission, so that the health statistics of Calcutta may easily be comparable with the sanitary records of other towns and countries of the civilized world. The number of births registered was 8,290 as compared with 7,434 in 1883, and 6,985 the mean of the preceding decade. The ratio of registered births per 1,000 of population was 19·1 as compared with 17·1 in 1883. The average birth-rate in England is 34·4 per mille. The Health Officer is of opinion that the registration of births was comparatively satisfactory, and shows results better than those of any year of which there is record, though it is apprehended that birth registration in Calcutta is still imperfect. Among the various races, the recorded birth-rates per mille were—

	1884.	1883.
Non-Asiatics	13·2	13·1
Mixed races	49·6	48·5
Hindoos	20 2	18 9
Mahomedans	15·9	13·6
Other classes	4 2	6·6

14. The number of deaths recorded during 1884 was 13,256 as compared with 12,325 in 1883, giving a death-rate of 30·5 per mille against 28·4. The year 1884 was exceptionally unhealthy in two respects: there was a severe outbreak of cholera in the months of March, April, and May, causing 1,616 deaths against a mean figure for the same months for the previous 14 years of 605. Small-pox also prevailed to an unusual extent, causing 478 deaths against 73 in 1883 and 17 in 1882.

Report on the Administration of the Customs Department for the year 1884-85

The following statement shows the gross and net Customs revenue collected in Bengal during the past five years :—

The marked improvement in the net duty of Rs. 13,20,499, or 6·4 per cent., is due entirely to the larger importations and clearances of salt. As there was a reduction in the quantity in hand at the close of the year, it appears that the anticipated increase in the consumption of salt, owing to the reduction of duty on the article, has been realized. Import duty, exclusive of salt, shows a falling off of Rs. 1,88,251, or 12·4 per cent., due chiefly to the smaller collections made during the year on imported ale, beer and porter, spirits and wines The decline in the export duty of Rs. 3,67,812, or 18·4 per cent., is attributable to the depression in the rice trade on account of scarcity in some parts of Bengal. From the returns for the several ports an improvement is noticeable in the net revenue of all except Balasore and Naraingunge. The increase amounted to Rs. 13,41,246, or 6·6 per cent., to which Calcutta contributed Rs. 12,14,719, or 6 4 per cent.

2. The total value of the imports into Bengal, exclusive of Government transactions, shows an advance of over 22 lakhs, but the improvement is confined to the coasting trade. Imports of foreign merchandise fell in value by 97 lakhs, and it was only a large increase in importations of silver that reduced the percentage of decrease in foreign imports to so low a figure as 1·2. In the coasting trade there was an improvement of nearly 52 lakhs, shared both by merchandise and treasure.

3. The value of the export trade of the year was Rs. 39,92,99,926 against Rs 43,56,07,096 in 1883-84. In the foreign trade the exports declined in value by more than three crores, representing a decrease in value of merchandise of Rs. 3,27,00,831, and an increase in treasure amounting to Rs. 18,99,969. The falling off in the value of merchandise was due to the reduced exports of Indian produce. The total coasting trade exports show a decline from Rs. 7,34,73,568 to Rs. 6,79,67,260 owing to the smaller shipments of Indian produce from the Presidency and to the reduced quantity of silver taken by the Burmah ports.

4. *Calcutta, Foreign Trade.*—Government transactions consisted of Rs. 1,10,82,856 of imports and of Rs. 63,692 exports. There were decreases under both the heads. The fall in imports was chiefly in materials for the construction of railways, woollen piece-goods, and printing paper. Exclusive of these transactions, the imports of the foreign trade declined from Rs. 24,40,48,995 to Rs. 24,07,73,371, and the exports from Rs. 35,07,62,762 to Rs. 32,15,49,602. The principal falling off in the imports

was under the heads of white and coloured cotton piece-goods, railway plant and rolling-stock, machinery, and wrought copper and iron; while the decrease in exports occurred in wheat, raw cotton, opium, indigo, raw silk and sugar. On the other hand, an improvement is observed in the imports of grey cotton piece-goods, kerosine-oil, parts of ships, spices, refined sugar, and umbrellas, and in the exports of oil-seeds, hides, raw jute and gunny-bags and gunny cloths

5. The proportions which various nations contribute to the foreign trade of Calcutta were not disturbed by any remarkable change. The share taken by the United Kingdom, which was as usual more than three-fifths of the entire trade of the port, fell off by nearly 3 crores, or 1·39 per cent. In the total trade with China there has been a decline of about 97 lakhs, due to the Franco-Chinese war The trade with France has fallen off from 3·02 per cent. to 2·49 per cent., and that with Italy from 1·89 per cent. to 1·70 per cent.; but, on the other hand, there were larger transactions with the United States, Ceylon, Straits Settlements and Austria. In the case of the United States, there was an advance of nearly 51 lakhs in imports, consisting almost entirely of kerosine-oil, and of 24 lakhs in exports, comprising raw jute, gunnies and gunny cloths, indigo, linseed and saltpetre. Ceylon has taken more rice and treasure from Calcutta, and has exported less khopra or cocoanut kernel. The trade with Straits Settlements has materially recovered during the year under review. There has been an increase of over 47½ lakhs in exports against a decrease of nearly 2¼ lakhs in imports The increase under the former head is due to heavy shipments of opium and gunny-bags to Singapore and Penang. The decline of imports is entirely under the head of treasure; imports of merchandise showing a slight improvement. An advance of over 4¾ lakhs is observed in the trade with Austria, due almost entirely to larger importations of cotton-goods and aniline dyes from that country. The proportion of the foreign trade of Calcutta using the Suez Canal amounted last year to 63·3 per cent. against 63·6 per cent. in 1883-84 and 58·6 per cent. in 1882-83.

6. *Imports.*—Imports of cotton twist and yarn increased in quantity by 44,211lb, but the value fell off by Rs. 3,90,146 in consequence of accumulation of stocks Piece-goods of all kinds taken together did not fare better suffering a decline in value of Rs. 30,62,036, or 2·6 per cent. There was a heavy increase in the quantity of grey shirtings imported, the number of yards rising from 666 millions to 702 millions; but this increased importation was owing rather to excessive production in England than to any legitimate expansion of demand in Bengal, and the year closed with a large accumulation of stocks. Not only had the short crop in 1884 considerably affected the purchasing power of the agricultural population; but the complications with Russia on the Afghan frontier made dealers cautious and restricted their transactions. In British white piece-goods the decline was very large, and there was a decrease also in the small trade with France. American imports increased, but the trade in piece-goods with the United States is still very insignificant. The demand for woollen piece-goods was higher, and the price was favourable to importers. The trade in shawls was less active owing to unduly large importations in 1883-84. Umbrellas were imported in larger numbers than in any previous year, and the demand is said to be at present unequal to the supply.

7. The total results of the trade in metals show a decline in value of Rs. 34,63,031, the decrease being most marked in iron, copper, quicksilver and zinc. The imports of unwrought iron have fallen off by 59 per cent., and of wrought iron by 8 per cent.; this is due to the overstocking of the market in 1883-84. The quantity of lead imported last year was about the average. Machinery and mill-work have declined from Rs. 82,79,734 to Rs. 66,77,062, owing to the larger importations made in 1883-84 and to the depression in jute trade. The value of the imports of railway plant and rolling-stock has fallen off from Rs. 80,58,989 to Rs. 48,36,232, or about 40 per cent., in consequence of the railways that were under construction either having been completed or being in an advanced state.

8. The trade in mineral oil was very brisk in the year under review. 17,282,047 gallons were imported against 7,566,520 gallons in 1883-84. The increase was chiefly made up of the oil from America, which rose from 6,811,383 gallons to so many as 16,120,532 gallons. The Collector of Customs

attributes this large increase to an attempt made last year to break the combination by which the trade in this oil was monopolised by two large dealers in Calcutta. The competition thus excited caused importations in excess of the present demand, and large stocks have accumulated. Prices have, therefore, been kept very low, and the result will probably be a great expansion of the demand. Kerosine-oil is now coming into free use in all places to which there are easy means of transport, and it would be difficult to assign a limit to the possible development of the trade. An advance is also observed in the imports of a superior quality of oil from the United Kingdom and British Burmah. The increase shown under other countries does not, it is said, indicate the opening out of any fresh sources of supply, but is mainly accounted for by two large consignments of American oil brought on here from Victoria, probably in anticipation of obtaining a better market.

9. The imports of malt liquors have fallen off in quantity from 601,477 gallons to 436,303 gallons, and in value from Rs. 14,58,090 to Rs. 10,87,848. The decline is principally observable in Bass' beer, from 200,800 gallons to 130,611 gallons. Pilsener has slightly declined, but it has now displaced Bass from the head of the list, and become the most largely imported beer. The imports of spirits have declined, both in quantity and value, owing to the stock remaining in hand from the shipments of previous years passing into consumption during the year under review. The demand for brandy has fallen exceptionally low, and the imports of this spirit were, for the first time, less, both in quantity and value, than those of whisky. There was a general decline in every description of wine and liqueur, which is partly attributed by the Collector of Customs to an increase of non-alcoholic habits, and to some extent to a growing preference for whisky, due to its comparative cheapness. The importation of Australian wines has not advanced.

10 The imports of corals have fallen off from 154,716lb to 151,892lb in weight, and from Rs. 20,39,316 to Rs. 16,17,434 in value. The depression in this industry is due to the overstocking of the market in previous years. As compared with 1883-84, there was an increase under the head of agricultural implements of more than a lakh, but they have not yet reached the average of previous years.

11. The trade in tea with China, Straits Settlements, and other countries has fallen off by 67¾ per cent. This is attributed by the Collector of Customs to the very low prices of the common kinds of Indian teas during the last year having enabled the buyers of cheap tea to supply their wants from the local market at favourable rates. The chief recommendation of China tea is its cheapness, so that if the Indian gardens can continue to supply tea such as natives drink at low prices, importations from China will shortly cease altogether.

12. The progressive increase in the importation of cigars, noticed in last year's Resolution, has been checked, Manilla cigars being displaced by cigars made in India and Burmah. The imports of manufactured tobacco have, on the other hand, advanced, owing to the high prices ruling in the Calcutta market.

13. *Exports.*—To the total value of goods of Indian manufacture exported from Calcutta, opium contributes 19½ per cent, jute 17½ per cent., tea 12½ per cent., oil-seeds 11⅓ per cent., grain and pulse 9¾ per cent., indigo 9⅛ per cent., hides and skins 8 per cent. Other exports, of which silk, raw cotton, lac, saltpetre, castor-oil and sugar are the most important, make up the balance. The jute crop being abundant last year, the exports of the raw fibre rose by 1,352,244 cwt. in quantity and Rs 21,68,906 in value. Except Australia, all the jute-consuming countries contributed to this increase. The exports of gunny-bags show an increase in quantity from 62,420,662 to 81,626,604, and in value from Rs. 1,22,88,708 to Rs. 1,38,94,455. The apparent improvement in this trade, however, is no cause for satisfaction. The Collector of Customs has offered the following remarks:—

"Under ordinary circumstances such a large development of any trade should indicate that the trade is in a prosperous condition; but it is very far from being the case in this instance. The increase in exports shown unfortunately represents over-production: the outturn had somehow to be disposed of; but it could not be disposed of profitably. The prosperous condition of the jute manufacturing industry in 1882-83 brought about more mills and large increases in the producing capacity of those in existence, and the extra quantity of the

manufactured article to be disposed of has accentuated the depression that began in 1883-84. The crop of jute last year, though large, did not reduce the cost of production sufficiently to ensure profits, for prices of bags also fell, with the result that nearly all the mills during the past year have been working at a loss, and in one case the company has gone into liquidation.

"Efforts have been made to arrange to work the mills short time, but for want of unanimity this arrangement, I understand, could not be carried out. A smaller production would probably result in larger prices, and might lower the price of raw jute, and both these things would of course be of advantage to the mills; but it should not be forgotten that the cost of the manufactured article would thereby be raised, the tendency of which would be to check consumption and place Calcutta at a disadvantage in competing with Dundee. The alternative course, to which the force of circumstances has led, appears to be to go on producing up to the capacity of the mills, and so spread the fixed expenses which might be met over the largest production possible; but this leads to heavy losses, and it so becomes a question of a mill being strong enough to hold out until the depression of trade, which is general all over the world, has passed away, when jute manufactures will no doubt again rise in value."

14. The exports of tea have increased from 59,190,914lb to 63,830,228lb. with a decline in value from Rs. 4,02,34,619 to Rs. 3,98,18,726, There appears to be some reason to believe that the markets cannot be extended with sufficient rapidity to keep pace with the increased production of tea; and if this is the case there can be no hope of any material rise in prices. The exports to Australia have advanced, but those of deliveries of China tea to America have fallen off. The proportion of deliveries of Indian tea in London in the year under review is 41·3 per cent., while it was 34·6 per cent. in 1883-84. India, however, has a formidable rival in Ceylon. The exports of Ceylon tea to London have risen to 2,392,973lb from 1,665,768lb in 1883 and 697,268 in 1882, and, as the following remarks of the Collector of Customs show, the trade is capable of great expansion:—

"The amount even now is insignificant compared with the exports of Indian tea, but it will increase year by year, and the extension in cultivation already is said to have been from between 200 and 300 acres in 1873 to 48,000 acres in 1884. This is an enormous advance and the production, when the large available acreage, said to be from 150,000 to 160,000 acres, has been opened out and comes into full bearing, will have a very sensible effect on the tea market. It has been estimated that about 70,000,000lb yearly may eventually be the outturn of Ceylon Tea there has several advantages. First and foremost is the excellent quality of the tea produced, for it is said to be equal to the very best of the Indian teas, and it obtains quite as high prices. In London, during the past year, there was an active enquiry for Ceylon teas, buyers finding them to be most useful for mixing purposes. Then an acre in Ceylon will produce half as much tea again as it will in India The climate, too is more to be depended on for tea-growing, there is a good supply of labour, and the tea can be more cheaply shipped. Lastly, Ceylon is growing tea on our experiences, and will presumably avoid our past mistakes. With all these advantages, it is clear that the prospects of Ceylon tea are in the ascendant, and that the expansion of tea-growing there will continue rapid."

15. The exports of rice fell from 6,082,023 cwt. to 4,953,065 cwt., with a rise in price from Rs. 1,98,95,582 to Rs. 1,99,16,8 2. The decline in quantity is attributable to the large demand for local consumption arising out of scarcity in some parts of Bengal. Of the exports of oil-seeds, linseed, the most important, has declined by 12·4 per cent., while poppy, rape and tilseed have improved.

16. The following table shows the exports of wheat from Calcutta for the last five years:—

1880-81.		1881-82.		1882-83.		1883-84.		1884-85.	
Cwt.	Rs.	Cwt.	Rs.	Cwt.	Rs.	Cwt.	Rs.	Cwt.	Rs.
3,955,269	1,51,26,950	6,668,896	2,52,03,203	4,438,503	1,79,33,850	7,611,414	3,04,27,244	2,561,677	99,91,067

The figures of 1884-85 are the lowest for some years. The falling off amounted to 66 per cent': and more than 60 per cent. of this occurred in the shipments to the United Kingdom. The cause of this heavy decline is said to be due to the extraordinarily low prices of wheat ruling in the United Kingdom owing to an abundant wheat crop, and the enormous supplies available there and elsewhere.

17. Among other articles of export, indigo shows a falling off of 3·5 per cent. in quantity and 10·3 per cent in value, due to the low prices that prevailed at the auction sales in London and to the quality of the crop being generally not up to the average. A satisfactory progress is observed in the trade in raw hides and skins. An increase of 9 per cent. has occurred in the former and of 19 per cent. in the latter. Raw cotton fell off from 636,620 cwt. to 288,971 cwt. In Lancashire there was a fair demand for

the article, and the decline in the trade was due to higher prices and shortness and bad quality of the crop. The exports of raw silk decreased by 3·2 per cent. in quantity and 26 per cent. in value. This heavy decline in price is the result of the market in London for raw silk having been fairly supplied from China and of the accumulation of large stocks There was, on the other hand, an improvement of nearly 28 per cent. in exports of silk piece-goods. The trade in lac revived, the total quantity and value having increased by 30,275 cwt. and Rs. 4,41,449 respectively. The trade in refined sugar collapsed, exports dwindling from Rs 17,60,378 to Rs 1,37,221; and Bengal last year imported more of this article than was exported. The sudden depression is said to be due to the very low price of sugar resulting from the enormous production of beet-sugar on the continent. The exportation of unmanufactured tobacco has decreased by 40 per cent. The figures are, however, higher than those of 1882-83 and of all previous years.

18. The net imports of gold fell off by more than 13 lakhs, owing, it is said, to the unfavourable state of trade. Both the imports and exports of silver have increased by 80½ lakhs and 19 lakhs respectively. The increase under exports is said to be due to larger shipments made to Ceylon. The principal cause of the rise in imports was the smaller drawings of the Secretary of State, which necessitated the sending of silver by remitters from London.

19. *Coasting trade.*—The total imports of the coasting trade of Calcutta rose from Rs. 3,33,17,031 to Rs. 3,47,94,792, while the total exports fell from Rs 4,7·,83,813 to Rs. 4,56,12,750. The importations of cotton twist and yarn show a further advance of 603,858lb, and the figures are the highest yet reached. The total value has, however, declined by Rs. 1,51,080 owing to the low selling price of the articles. The receipts from Bombay have exceeded those from the United Kingdom by 503,284lb. The increase in quantity has been attributed by the Collector of Customs to the unsatisfactory state of the market in Bombay for country-made twist and yarn, leading the spinners there to seek outlets for their productions in other quarters. The imports of castor seed, turmeric, gram, manufactures of coir, and ground nuts and refined sugar from Madras, and those of paddy from Bengal outports, have increased. The imports from British Burmah have declined with the decline in the importation of teak timber The decline in exports occurred in shipments of rice and refined sugar to Bombay, and of cotton twist and tobacco leaf to British Burmah.

20. *Minor Ports.—Chittagong* —The total value of the foreign trade of Chittagong has fallen off from Rs. 1,00,61,967 to Rs. 83,10,652, representing an increase in the imports of Rs. 2,88,650 and a decrease in exports of Rs. 20,39,965. The increase under the head of imports was chiefly due to the direct importation of salt from England and of kerosine-oil worth over two lakhs from America. The trade in the latter article with America is likely to develop still further. The export trade shows a decline, both in quantity and value, in all articles of Indian produce, except tea. The decreases were the heaviest in jute and rice. In the coasting trade there was a total decrease of Rs. 14,58,015, the details of which are of no special interest.

21. *Orissa Ports.*—The value of the total trade of the Orissa ports rose during the past year by Rs 42,33,859, or 29 per cent. In the foreign trade of Balasore there was a falling off, but the coasting trade of the port was exceptionally brisk. An advance of about 5 lakhs or 45·1 per cent. is observed in the foreign trade of Cuttack, the increase being chiefly in exports of rice to Galle, Colombo and the Maldives, but the coasting trade shows a considerable decline, and much of it is being diverted to the port of Chandbally in Balasore. The value of the Pooree rice trade increased over ¼ lakh, or 18 8 per cent., but the total trade of the port shows a slight falling off.

22. *Port of Naraingunge.*—An increase of Rs. 24,255, or ·3 per cent., is observed in the value of the total trade of the port. The exports of jute, to which Naraingunge principally owes its importance, rose from 1,030,637 cwt. to 1,200,903 cwt. in quantity and from Rs. 70,23,759 to Rs. 71,25,069 in value.

23. The Lieutenant-Governor thanks the Board for their efficient supervision of the work of the department during the year. His acknowledgments are also due to Mr. Armstrong for his interesting report. The names of the officers favourably noticed by the Board will be communicated to the Appointment Department.

By order of the Lieutenant-Governor of Bengal,

Offg. Secretary to the Govt. of Bengal.

RESOLUTION ON THE ADMINISTRATION REPORT OF THE PORT OF CHITTAGONG FOR 1884-85.

MUNICIPAL DEPARTMENT—MARINE.

Calcutta, the 12th December 1885.

RESOLUTION.

READ—

The Report on the Administration of the Port of Chittagong for the year 1884-85.

Read also—

The Report for the year 1883-84, and the Resolution recorded upon it.

The trade of Chittagong shared the general depression in all branches of commerce during the year 1884-85, but on the whole the statistics recorded during the year are satisfactory, and there is every hope of a general revival in trade being accompanied by a rapid development of the business of this port.

2. The following table shows the number and tonnage of vessels which visited the port during the year, and the corresponding figures for the previous year:—

PARTICULARS.	1883-84.		1884-85.		Increase.		Decrease.

Total ...	3,004	257,605	2,843	259,108	8	15,783	169	14,280

3. The increase in the number and tonnage of European vessels engaged in the foreign trade was due to a larger exportation of rice to the West Indies than in the previous year. The large increase in the tonnage employed in the Naraingunge inland trade is attributed to the fact that "nearly all the jute was carried last year by Chittagong vessels, which are larger than the foreign-owned vessels largely employed in the previous year. For this reason the increase of 10,489 tons was combined with an increase of only three vessels."

4. The following is an abstract of the quantity and value of the principal articles imported and exported during the past two years:—

	1883-84.		1884-85.	
	Quantity.	Value.	Quantity.	Value.

	Gallons.		Gallons.	
Mineral oils	291,444	1,46,287	903,358	4,01,312

The large falling off in the quantity of rice exported is attributed to two causes; owing to high prices trade in this article was dull at the beginning of the season; and later on, when it might have revived, the north-west winds had set in, and the ballam boats in which the rice is brought from Noakhally to Chittagong could not venture out to sea. The Lieutenant-Governor has no doubt that it would be a very great advantage if, at any reasonable cost, the Moheshkhali canal could be permanently opened out so as to afford a safe passage for these boats at all times of the year, and the proposal to retransfer the canal to the port with this object will be dealt with as soon as the question of the formation of a Port Trust at Chittagong has been finally decided. Certain details connected with this important question are still under the consideration of the local authorities. There was a large increase in the importation of salt and mineral oils, and the kerosine oil trade appears to be now firmly established.

5. The total receipts of the Port Fund during the year 1884-85 amounted to Rs. 74,116 against Rs. 81,340 in the previous year, showing a decrease of Rs. 9,596, which was chiefly due to the falling off in pilotage collections. The whole question of pilotage at Chittagong is now under special consideration.

6. The expenditure of the port during the year under review was less than that of the previous year by Rs. 36,312, the total being Rs. 46,554 against Rs. 82,866. The decrease was chiefly under Dockyard charges "partly due to the whole of the charges not having been debited during the year, and partly due to decreased purchases of materials."

7. Six new vessels were built at the port during the year with a gross tonnage of 1,022, against twelve with a tonnage of 1,529 in the previous year. Apparently, therefore, as observed by the Commissioner, the tendency is to build a larger class of ship.

8. The jetty is reported to be in good order, but no use was made of it during the year. At low water there is only 14 feet of water at its head, and ships of greater draught cannot therefore approach it. On the establishment of a Port Trust at Chittagong, it will be for consideration whether the jetty should not be extended further into the river, and improvements made at its head to admit of two hatchways of a salt ship being worked at the same time. The moorings of the port were fully utilized, and during the height of the season were found to be insufficient for the accommodation of all the vessels in port. Additional moorings are required for the port. The buoyage arrangements continued satisfactory. All the leading marks indicating the channel of the river were kept in good order, and no alteration was found necessary. The whistling buoy on the South Patch shoal is reported to have broken away, and endeavours are being made to recover it. The tide-gauges were kept in good order; but they are said to be of little use, as they only record the height of the tide. Arrangements have been made for the transfer next year of a self-registering tide-gauge from Moulmein to Chittagong.

9. The lights at Kootubdea and Norman's Point were kept in order, but they are very defective, and are not at all suited to modern requirements. The question of placing a more powerful light at Kootubdea is under separate consideration. The improvement of the Norman's Point light must be deferred till the Port Fund is in a position to bear the necessary expenditure.

10. Eight accidents to vessels took place in the river during the year under report, against six in the previous year. None, however, were of a serious nature. In five cases the vessels were in charge of port pilots, but the pilot is reported to have been in fault in only one instance. The number of wrecks which occurred outside the port was nine; of these six took place during the gale of 1st November last, when several lives were lost. One of these vessels was afterwards floated and brought into port.

11. A permanent dock has been constructed near the office of the Port Officer in the Monoharkhali large enough to admit of the docking of the pilot-cutters, steam-launch and heave up boat, and during the year all these boats were docked and thoroughly overhauled.

12. The health of the port was not as good as in the previous year. The number of deaths was 16, 11 of which were from cholera against 3 in 1883-84. A scheme is in progress for supplying the shipping with good drinking water;

and one of the pilot cutters will be utilized for the purpose until arrangements of a more permanent nature can be made. The Commissioner has summarised the wants of the port in paragraphs 53 to 60 of his report; they are, briefly, better towage; better lighting; more moorings; a telegraph to the mouth of the river; a sailors' hospital; the excavation of the Moheshkhali; and a road to the lower moorings. Some of these wants are being supplied, but the greater number must be deferred until the Port Trust is constituted. It is impossible for Government to undertake the cost of works which are more appropriately chargeable to the Port revenues; and it would therefore be premature to discuss these questions until this larger question has been decided.

13. The Lieutenant-Governor is glad to notice that the Port Officer, Mr. Good, continues to receive and deserve the commendation of his superior officer for the manner in which he performs his duties.

J. WARE EDGAR,

Offg. Secretary to the Govt. of Bengal.

ALEXANDER PEDLER,

Offg. Meteorological Reporter to the Govt. of Bengal.

METEOROLOGICAL AND RAINFALL SUMMARY OF THE PROVINCE OF BENGAL FOR THE MONTH OF NOVEMBER 1885.

Normal meteorological features of the month.—The usual conditions of the meteorology in Bengal during November are simple; the north-east monsoon generally establishes itself in Bengal before the close of October, and thus November is characterized by rapidly falling temperature, especially at night, clear if not cloudless skies, and little or no rain. Wind directions too are usually northerly, with a more or less westerly element in them, and generally only light and gentle winds prevail. These northerly winds gradually drive back the south-west monsoon winds which had previously swept over the whole Bay, and cause them to curve inwards, and to reappear on the Madras coast as what is there called the north-east monsoon, which current gives heavy rain to the Madras Presidency. These conditions are, however, liable to be disturbed by two causes: the first of which is the formation in the Bay of Bengal of a cyclonic vortex, large or small as the case may be, generated by the condensation of large quantities of rain in the front of the gradually retreating south-west monsoon, which, although it has ceased to affect Bengal, continues to blow in the south of the Bay during a great part of November. The formation of such a vortex has always an influence on the weather in Bengal, and while, if it passes into Bengal, the whole weather conditions are completely changed, yet, even if it passes into Burma or into Southern India, the weather conditions are always more or less affected by it. It is, however, very rarely that a cyclone thus generated in the Bay passes into Bengal in November, and in those cases, where cyclones have thus passed into Bengal in this month, it is usually quite at its commencement, for during the latter part of this month cyclones are only formed in the south of the Bay, and usually pass towards the Madras coast, striking it about Madras or to the south of that station.

The second disturbing element in the weather of November is from an opposite cause, and is due to the occurrence of land storms generated, it is believed, usually in the Punjab, which storms drift eastwards and southwards through the North-West Provinces and sometimes influence the weather in Behar and Bengal very considerably. It is, however, an extremely rare thing for such a storm to enter Bengal in November, though they sometimes do so in the later months of the north-east monsoon.

In the case of both disturbing causes, they produce clouded skies, increased humidity and temperature, and light to moderate rain or if the locality is directly influenced by a cyclone, then of course heavy rain is received Excepting, therefore, under these circumstances, weather during November is fine with passing clouds, and there is little, if any, rainfall The average normal rainfall in the whole of the Province, excepting the Chittagong, Backergunge and Noakholly districts of East Bengal, and the Cuttack and Pooree districts in Orissa, is not more than a few tenths of an inch, while in these exceptional districts the average rainfall varies only from one to three inches.

Meteorological summary for the month.—At the close of October the weather conditions in Bengal were those of the north-east monsoon, and, if anything, the north-east monsoon conditions were rather more strongly pronounced than is usual at the end of October The skies over the whole of Bengal were practically cloudless, temperature had fallen rapidly and was decidedly below the average, humidity was low, and a steady northerly current was blowing over the greater part of the Province. The north-east monsoon conditions were at this period being intensified by the occurrence of the Madras rains, for heavy rain had fallen at all stations from Masulipatam down to Galle, and, as explained above, this action always increases the steadiness of the north-east current in Bengal. At the commencement of November, however, the heavy rainfall along the Madras coast suddenly ceased, though a steady northerly current continued to blow at the northern stations in the Bay, and very strong winds continued to blow at Galle. On the 2nd of November it became evident that a cyclonic storm had formed in the south of the Bay, and that it was approaching the west coast. Pressure fell rapidly with the advance of the storm towards the coast, and at Madras the fall from 10 A.M. of the 1st of November to 10 A.M. of the 2nd was about two-tenths of an inch. The cyclonic storm apparently crossed the coast about midway between Masulipatam and Madras during the evening of the 2nd of November, and from the reports received from Simla, it would appear that the storm travelled across the whole of the Peninsula without breaking up. The storm was a large though not an intense one, and it affected the whole of the stations on the west coast of the Bay, giving heavy rain to the central stations and lighter rain to the others. Rain was therefore received at almost all stations in Orissa on the 3rd and 4th of the month, and in some cases on the 5th; the southern stations receiving heavy and the northern stations light rain. With the advance of this large disturbance across the west coast, weather in Bengal also became unsettled, skies clouded over rapidly, and in the southern districts they became almost practically overcast for some days. Considerable amounts of moisture drifted over the Province, and humidity and temperature rapidly rose. The northerly winds rapidly fell off in force, and winds became light and variable. During the continuance of these disturbed conditions, a few light showers were reported from Chutia Nagpur and also at a few stations in South-West Bengal, and at the stations in the Darjeeling Hills, but the amounts were insignificant. From about the 6th or 7th of the month these disturbed conditions gradually disappeared, and again normal north-east monsoon conditions set in over the Province. Pressure also generally increased, and for the second week in the month the excess pressure above the normal varied from about 0·02″ to 0·06″. Skies became practically cloudless, temperature became nearly normal, and rainfall was practically absent over the whole Province.

On the 14th of the month, however, the weather conditions in the south of the Bay became disturbed. Winds commenced to strengthen at all the southern stations, while pressure fell rather rapidly off the Ceylon coast. These conditions continued on the 15th, and it was clear that stormy weather was commencing. On the 15th there were the first indications of the formation of a cyclonic storm in the extreme south of the Bay, and on this day Negapatam reported 8 inches of rain and Madras 4 inches. Weather continued very stormy along the coast on the following day, and at Negapatam, on the 17th, the excessive rainfall of 13·61 inches was reported, while on the same day Madras reported 5·73 inches; on these two days Negapatam reported no less than 21·62 inches of rain, and Madras 9·74 inches. The unsettled and stormy weather then commenced to move in a northerly direction, and on the 18th the storm was a little to the south-east of Madras, and probably not far from the coast. It then moved slowly in a north-easterly direction, and on the 20th it was nearly in the centre of the Bay, and in about the latitude of Masulipatam and Diamond Island. At this time the storm was giving strong winds in the south and west of the Bay, and very strong winds at Diamond Island. The storm continued its slow northward advance, and on the 21st, judging by the fall of the barometer at Diamond Island, it appeared to be moving towards that station; but on the morning of the 22nd it was some little distance to the south-west of Akyab, and was still moving slowly in a north-easterly direction, and finally, on the morning of the 23rd, it passed inland to the south of Chittagong.

The barometric depression at the centre of the storm was apparently not very great, though on the morning of the 23rd pressure at Chittagong fell nearly a quarter of an inch, but from the logs of vessels navigating the Bay during the advance of the storm, it would appear that the storm was rather a severe one, and very fierce winds and heavy squalls were reported. Warnings of the existence and advance of the storm were issued to the stations on the east coast, and with the advance of the storm to the north of Akyab the storm signals were hoisted in the Chittagong river and also in the Hooghly; but when it appeared that the storm was reaching the coast to the south of Chittagong, the signals in the Hooghly were lowered, and shortly afterwards the Chittagong signals were lowered.

This storm is a somewhat remarkable one in the history of Indian cyclonic storms, for there is scarcely any other case on record when at the latter end of November a storm has advanced from the extreme south of the Bay in a north-easterly direction, till it has reached the north-east angle of the Bay.

During the period of the formation and northerly advance of the storm, and particularly when it reached the northern half of the Bay, the weather conditions in South Bengal became very disturbed, skies clouded over rapidly and became almost overcast, temperature and humidity increased very considerably, and a few rain showers were reported; and when the storm reached the land, it gave general rain to the greater part of East Bengal, the rainfall in many instances being decidedly heavy, and thus on the 23rd instant the Chittagong district received an average fall of nearly four inches.

With the advance of the storm over the land, it apparently rapidly broke up, and weather conditions quickly became normal again; and from about the 24th to the end of the month, normal north-east monsoon weather prevailed over the whole of the Province. Temperature fell rapidly during this time, pressure became very high, skies became cloudless, and no rain was reported.

The variations of pressure for the month have been of the usual oscillatory character, except for the two periods described above during the formation and advance of the two cyclonic storms, when the oscillations were to a great extent masked by the greater changes due to these storms. At the commencement of the month pressure was distinctly above the normal, and the average excess pressure over the Province for the first week was about 0·05″. In the second week also pressure was at almost all stations in excess of the normal, but the general excess was decidedly smaller than in the previous week. In the third week, at the southern stations, pressure was in defect owing to the influence of the storm; but at the northern stations the excess was rather more pronounced, and in the last week of the month pressure had become decidedly below the normal in East and South-West Bengal and Orissa, while it was only in very slight excess in the other districts. For the whole month pressure has consequently been in excess of the normal, and the average variation of the whole Province for the month has been an excess of 0·035 inch. The excess pressure has been most marked in the northern districts, particularly in North Behar, where at Durbhunga the excess has equalled 0·08 inch and at Purneah where it has been 0·06 inch.

Temperature during the first week of the month was below the normal in nearly all districts, the defect varying from 2·4° in Orissa to a slight excess in Chutia Nagpur. In the second week temperature was decidedly in excess in Chutia Nagpur and South Behar, while in other districts it was nearly normal. In the third week temperature had become in excess in all districts, the general excess being from 1° to 2°, while in the fourth week again temperature was decidedly in excess of the normal. The mean temperature of the month has consequently in most districts not varied largely from the normal. In Orissa, South-West Bengal and North Behar the temperature has been practically normal, while in East Bengal, South Behar and Chutia Nagpur it has averaged about 1° above the normal.

Rainfall has been confined to the two periods noticed in the meteorological summary for the month, and also to the districts which were influenced by the two cyclonic storms. North Bengal, the whole of Behar, and South-West Bengal have been almost absolutely rainless during the month, while light rain has been reported from East Bengal and

Orissa. The average rainfall in East Bengal has been 1·58 inches, and in Orissa it has been 1·34 inches, but, as before stated, the distribution of the rainfall in these divisions has been uneven. In East Bengal the districts of Chittagong and Chittagong Hill Tracts have received heavy rainfall, the amounts being about 7 and 5 inches respectively, whilst in the case of Orissa the districts represented by the stations of Gopalpore and False Point have received the largest amounts of rain.

The following table gives the summary of the temperature and rainfall data of each of the seven Meteorological Divisions of the Province for the month of November 1885 :—

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard Newman's No 86 formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

Calcutta, *the* 14*th December* 1885.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL FOR THE WEEK ENDING FRIDAY, THE 11TH DECEMBER 1885.

THE meteorological conditions for the past week do not call for much discussion. Generally over Northern India pressure has been slowly decreasing, and the changes have brought a wind system slightly different from that which usually obtains during the north-east monsoon, for during the latter part of the week rather unusual easterly and south-easterly winds were reported generally over the Upper Provinces. With the falling barometer and the setting in of moist easterly winds, the sky over Upper India had become rather heavily clouded, though no rain had fallen up till the close of the week. A somewhat similar alteration has occurred in the weather conditions in Bengal, though the changes have set in rather later and to a smaller degree. Thus for the first two days of the week pressure was generally rising by small amounts in Bengal, and the sky remained practically cloudless, though even at this time there was a very distinct increase in the humidity and temperature. From Monday, the 7th, however, a fall of the barometer commenced, which continued without intermission, except on the 10th, up till the close of the week. During this time there was a fairly steady increase in the amount of cloud, while there was also a decided and marked increase in the temperature and humidity.

The wind current blowing over the Province commenced by becoming more feeble in strength at the beginning of the week, and a large proportion of calms have been reported during this period, while at the close of the week winds were becoming decidedly easterly over a considerable part of the province, and at many stations winds had even become south-easterly. The principal features of the week under review therefore have been the gradually reducing pressure, the increasing temperature and humidity, and the increase in the amount of cloud.

The mean pressure for the week has been distinctly below the normal at all stations except Dacca, and the average defect over the whole province has been about 0·02″. The defect has been most pronounced in South Behar and Chutia Nagpur and at the western stations generally, and at Gya the defect has been 0·06″, while at Bankipur, Hazaribagh and Saugor Island it exceeds 0·03″. On the other hand, at the eastern stations the pressure has been practically normal.

Temperature—During the week, as before stated, has undergone a gradual and fairly steady increase, and, except in Orissa, it is now above the normal in all districts. As during the previous week temperature was generally very decidedly below the normal, the change has been a very distinct one. The excess above the normal in East Bengal, South Behar and Chutia Nagpur varies between 1° and 2°, in North Behar it has been nearly equal to 1°, but in South-West Bengal the temperature has not been very far removed from the normal.

Rainfall—As has before been indicated, has been entirely absent over the whole province during the week.

The following table gives the summary of the temperature and rainfall data of each of the seven meteorological divisions of the Province for the week ending Friday, the 11th of December 1885:—

(*d*)—In any proceeding under Chapter X, the Revenue-officer may, at his discretion, recognise as proprietor the person in possession of the land pending the registration of his name and interest under the Land Registration Act.

Proprietor's private lands,—Nij-jote, Sir, Zerat, or Khamar.

13. Only land which is proprietor's private land, as defined in section 120 of the Tenancy Act, will be entered as such. Land which, though cultivated by the proprietor, is not proprietor's private land within the meaning of the law, will be entered thus—"Cultivated by the proprietor, but not private land." Separate khatians will be prepared for such land and for "Proprietor's private land."

Rights of Tenure-holders, Raiyats and Under-Raiyats.

14. The record of tenure-holders', raiyats' and under-raiyats' rights shall be prepared in the following manner:—

15. As soon as possible after the completion of the field measurements of each village the following papers shall be made over to the Revenue-officer:—

(1) The map. | (2) The amin's khasrah. | (3) The khatian.

16. On receipt of these papers, the Revenue-officer shall issue a notification, which may be in the form given in schedule I attached to these rules, fixing a day, which shall not be less than one month from the date of issue of the notification, on which he will be present at some place to be specified, at or near the village, and after which applications for the settlement of fair rents will not be received. The notification shall further state that on the day so fixed, or on any other day to which the proceedings may be adjourned, the Revenue-officer will proceed to record rents when the circumstances are such as are specified in section 104(1); or to settle fair and equitable rents on the application of either party; or on the Revenue-officer's own motion when the case falls under section 104(2); and it shall require all parties interested in the subject-matter of the enquiry to attend at the time and place specified, with such evidence as they have to offer in connexion with the proceedings. Such notice shall be forwarded to the Sub-divisional Officer and the Munsif within whose jurisdiction the land is situated to be affixed in their respective courts, and it shall also be published by proclamation and beat of drum and fixed up in the presence of not less than two persons in some conspicuous place in the village to which it refers.

17. The Revenue officer may also, if he deem fit, take such additional measures, under Rule 1 of this Chapter, as may be desirable to procure the attendance at the place specified in the notice to be issued under the last preceding rule of the under-raiyats, raiyats, landlords, tenure-holders, and proprietors, or their authorised agents.

18. The record of rights of tenure-holders and under-tenure-holders shall be, as far as may be practicable, prepared in the same way as the record of raiyats' rights, or in such other manner, not being inconsistent with these rules, as the Board of Revenue may direct. The record of rights of under-raiyats shall be, as far as may be practicable, prepared in the same way as the record of raiyats' rights, or in such other manner, not inconsistent with these rules, as the Board of Revenue may direct.

19. The record of raiyats' rights shall be prepared in the following manner.

20. On the date specified in the notice to be issued under Rule 16, or on any other date to which the proceedings may be adjourned, the entries which the amin has recorded in each tenant's khatian at the time of measurement shall be read out in presence of such of the interested parties as are in attendance. If the correctness of the entries recorded by the amin be disputed, the Revenue-officer shall settle the dispute by local enquiry or otherwise; provided that if the correctness of the measurement is called in question, and a fresh measurement demanded, the Revenue-officer may require the costs of the re-measurement to be deposited. If the re-measurement show the original measurement to have been inaccurate, the amount deposited shall be refunded to the objector.

21. The Revenue-officer shall ascertain what raiyats claim the right to hold at fixed rates, explaining, as far as may be necessary, the provisions of the Act in this respect. If the right claimed is disputed by the landlord, the Revenue-officer shall call on the claimants for proof of such right.

22. The Revenue-officer shall ascertain which of the raiyats are settled raiyats or occupancy raiyats, as the case may be, and shall record them as such in column 14 of the khatian.

23. The Revenue-officer shall ascertain what raiyats are non-occupancy, and to this end he shall be entitled to call upon the landlord or his agent to produce a statement showing the names of the raiyats alleged by him to be non-occupancy raiyats. On production of such statement, the Revenue-officer shall explain to the raiyats whose names are entered in the statement, and who have not already been recorded as occupancy or settled ryots, the nature of the presumption raised by section 20 (7). If after such explanation a raiyat admits himself to be a non-occupancy raiyat, he shall be recorded as such. If he does not admit himself to be a non-occupancy raiyat, the Revenue-officer shall call on the landlord to prove the allegation made by him in regard to such raiyat.

24. Abwabs shall not be recorded with, nor entered as forming part of, the existing rent. Cesses which are authorized by law shall be recorded in column 12 (*b*).

25. The Revenue-officer on the day fixed by the notice issued under Rule 16 shall, as far as may be convenient, first proceed to record rents under section 104, clause 1. When neither the landlord nor the tenant has applied to have a fair and equitable rent fixed, and when it does not appear that the tenant is holding land is excess of or less than that for which he is paying rent, the Revenue-officer shall summarily ascertain the tenant's present rent, and record it in column 12 of the *khatian*, as the rent payable in respect of the land held by the tenant.

26. When all rents to which section 104, sub-section 1, is applicable have been recorded, as far as may be convenient, the Revenue-officer shall proceed to settle rents under sub-sections 2 and 3 of the same section. In settling rents, the existing rent being presumed under section 104 (sub-section 3) to be fair till the contrary is proved, if the landlord claims an enhancement, he will have to prove the grounds

of and amount of enhancement; and if a raiyat claims a reduction, he will similarly have to prove the grounds of reduction. Provided that it shall be in the discretion of the Revenue-officer to admit an application made after the period fixed in Rule 16, if it be established to his satisfaction that the delay in making it was not due to any negligence or carelessness on the part of the applicant, and that, if it be not admitted, serious hardship or injustice would accrue to him. The order passed by the Revenue-officer on all such applications shall be final.

27. If within the period fixed and notified under Rule 16 the landlord applies for the settlement of a fair rent, he shall be considered as plaintiff and the tenant as defendant, and the proceeding shall be dealt with as a suit under this Act. If within the same period the tenant applies for the settlement of a fair rent, he shall be considered as plaintiff and the landlord as defendant, and the proceeding shall be dealt with as a suit under this Act.

28. If it appears that a tenant is holding land in excess of or less than that for which he is paying rent, and if within the period fixed and notified under Rule 16 of this Chapter neither landlord nor tenant applies for the settlement of a fair rent or if an application be not admitted under the proviso to Rule 26, the revenue-officer shall, in accordance with the notice, proceed to fix a fair and equitable rent for the holding under section 104, sub-sections 2 and 3.

29. When a fair and equitable rent has been fixed under the last two preceding rules, it shall be entered in column 13 of the *khatians* as the rent payable in respect of the holding.

30. Where the estate or tenure belongs to or is managed by the Government or the Court of Wards, the procedure laid down in the preceding rules for recording or settling rents shall be followed, the Government or the manager of the estate or tenure respectively, as the case may be, being regarded as the landlord.

31. With the consent of the Revenue-officer, any number of tenants occupying land under the same landlord, in the same village or estate, may make a joint application for the settlement of rents, or may be joined as defendants in the same proceeding on a similar application by the landlord: Provided that if at any time it shall appear to the Revenue-officer that the question between any two of the parties of whom one is so joined with others cannot conveniently be so jointly tried, he may order a separate trial to be held of that question or he may pass such other order, in accordance with the Civil Procedure Code, for the joint or separate disposal of the application as he may think fit.

32. In proceedings under section 106, when a dispute arises before the final publication of the record regarding the correctness of an entry (not being an entry of rents settled under Chapter X) or as to the propriety of any omission, notice of the objection shall be served on all persons whose interests may, in the opinion of the Revenue-officer, be affected thereby, and they shall be called upon to attend at such time and place as the Revenue-officer may fix for the disposal of the objection. If any person attends and contests the objection, the proceeding shall be dealt with as a suit between the parties under the Tenancy Act, in which the objector shall be plaintiff and the other parties defendants. If no person attends to contest the objection, the record may be amended accordingly, or the person who made the objection may, if the Revenue-officer thinks fit, be called upon to produce evidence in support of his objection, which may in that case be heard and decided as a suit *ex parte* under the Tenancy Act.

Publication of the Record of Rights.

33. When the record of rights has been prepared in the manner described in Rules 20 to 32, the Revenue-officer shall cause a draft of the *khewat* and *khatian*, or, when more convenient, of each separately, to be posted, for the period of one month, at the landlord's village office, if there be one, and, if there be none, then in the presence of not less than two persons, on some conspicuous place in the village, and shall receive and consider any objections which may be made to any entry therein during this period.

34. When all applications for settling a fair rent have been disposed of, and all disputes of the nature mentioned in Rule 32 have been decided and all objections of the nature mentioned in Rule 33 have been considered by the Revenue-officer, he shall note in the khewat and the appropriate columns of the *khatian* in regard to each entry what entries have been, and what entries have not been, the subject of dispute. He shall then finally frame the record and cause it to be published by having it posted in the village office at which the rent is usually paid, or in some conspicuous place in the village.

Supply of Copies of the Record of Rights to parties interested.

35. The Revenue-officer having completed the record, shall cause copies of it to be made one of which will be made over to the proprietor of the village or, where there are more proprietors than one, to their common agent or common manager, as the case may be, one to the village patwari, if there be a patwari, one to the Collector or Sub-divisional Officer.

A copy of the khatian relating to his tenancy shall be given to every tenant under the signature and seal of the Revenue-officer.

Final Reports.

36. The Local Government may, if it thinks fit, direct that a final report be written in English for each village and each local area under survey. The report for the village will show—

(*a*)—The number of tenants of each class.

(*b*)—The area and classification of the village lands according—(*a*) to survey and settlement; (*b*) to landlord's jamabandi, if known.

(*f*)—Facilities for irrigation.
(*g*)—Village customs, including customs as to payment of village officials.
(*h*)—Arrangements made for maintenance of records.
(*i*)—Other matters deserving of notice which have been excluded from the record of rights.

The report for the whole area under survey will contain the following particulars:—

IV—Comparison of condition of tract as regards rentals before and after survey.
V—Financial results, including approximate division of expenses under the heads—

(*a*)—Survey.
(*b*)—Record of rights.
(*c*)—Preparation and distribution of records.

These reports shall not form part of the Record of Rights.

Applications by Proprietors for Survey and Record of Rights.

37. *Section* 103.—Applications under this section shall be made to the Collector of the district.

38. The application shall specify—

(*a*)—The status of the applicant, viz. whether he is a proprietor or a tenure-holder, and the particulars in respect of which the application is made
(*b*)—The number of tenants (so far as the applicant is able to state it) occupying the estate or tenure, or part thereof in respect of which the application is made, the total rent payable by them at the time, and the estimated area covered by the application.

39. If the application is made by a proprietor, it shall not be admitted unless the name of the applicant and the extent of his interest are registered under Act VII (B.C.) of 1876.

40. On receipt of the application, the Collector shall forward it to the Commissioner with any remarks which he may think necessary.

41. The Commissioner may call for further information, or may require the application to be amended.

42. If the Commissioner shall have reason to believe that the number of tenants affected by the application does not exceed 1,000, and that the rent payable by them at the time the application is made does not exceed Rs. 25,000, he shall pass an order allowing or rejecting the application; but otherwise he shall forward the application with an expression of his opinion for the orders of the Board of Revenue.

43. A Commissioner rejecting an application shall record his reasons for doing so, and the applicant, if dissatisfied with the order, may appeal within one month to the Board of Revenue.

44. When an application is referred to the Board under Rule 42, or in consequence of an appeal under Rule 43, the Board shall pass such orders as it may think fit for allowing or rejecting the application.

45. The Commissioner or the Board, as the case may be, when allowing an application, shall specify the Revenue-officer or officers by whom the record is to be prepared.

46. As soon as an application is allowed, the Collector shall call upon the applicant to deposit the expenses at the rate of eight annas per acre for the estimated area in respect of which the application has been allowed. If the Collector is unable to estimate the area, he shall calculate the expenses at the rate of Rs. 2 per each tenant. If the amount does not exceed Rs. 500, the applicant must deposit the whole amount in advance. If it exceeds Rs. 500, the applicant shall deposit the sum of Rs. 500, and shall give such security as the Collector may require for the balance. The applicant shall, when called upon, from time to time, deposit such further sum as may be necessary for carrying on the operations. On completion of the proceedings, any unexpended balance shall be refunded to the applicant.

47. In conducting the operations, the Revenue-officer shall proceed in accordance with the rules for the guidance of officers acting under orders made under section 101.

CHAPTER VII.—GENERAL SCALE OF FEES.

1. *Section* 189 (1).—*For service of Notices.*—For the service of every notice under this Act, not being a notice issued by any Revenue or Civil Court (fees for serving which are regulated by the Court Fees Act), and not being provided for by any other rule made under this Act, a process fee of 12 annas shall be levied, if the notice be directed to one or more persons residing in the same village.

2. Where such notices are directed to several persons resident in different villages, a fee of 12 annas shall be levied for service in each village.

3. In addition to the above fee, the actual charge which must be incurred, if it is necessary to travel by railway or boat, or cross ferries, will be levied from and paid by the person at whose instance the process is issued before issue of the process. If a peon carries more than one process involving charges for railway-fare, boat-hire, &c., the sum leviable will be charged in equal shares upon all the processes so carried. The rates at which such boat-hire is to be charged shall be the same as those fixed for criminal processes under Rule VII of the rules prescribed by the High Court under clause 2, section 20, Act VII of 1870, and shall be sufficient only to cover, on the whole, the actual cost of hiring boats, or of such boat establishment as it may be necessary to maintain for the purpose of serving processes of these classes.

4. If a peon is detained at the place of service for more than 24 hours at the request of the person at whose instance the process was issued, or of his agent, such person or agent must then and there pay demurrage at the rate of 5 annas a day. Unless this demurrage is paid, the peon must decline to wait. No demurrage is to be charged if the delay was not due to the person requiring the process or to his agent.

5. *Section* 61 (2).—*For deposits of Rent.*—For deposits of rent under section 61 (2), 4 annas for every such deposit of Rs. 25 or less, with an additional 4 annas for every Rs. 25 or part of Rs. 25 in excess: Provided that in no case shall the fee exceed the sum of Rs. 5.

6. *Section* 134.—*For distraint of Crops.*—The following scale of charges is prescribed, on account of processes for distraint and sale under the Bengal Tenancy Act:—

(*a*)—In respect of the warrant of distraint—8 annas.

(*b*)—In respect of each man necessary to effect the distraint and also to ensure safe custody, where such man is to be left in actual possession - 4 annas a day.

(*c*)—In respect of action taken under section 126 (clause 2) for the reaping, storing, or preservation of the crop distrained—4 annas a day for every person employed, and in addition actual hire of threshing floor or store-house, if necessary.

In addition to the charges under clauses (*a*), (*b*), and (*c*) above, railway-fare, boat-hire, and ferry charges will be levied, when necessary, as under Rule 3 of this Chapter.

COAL CARGOES.

No. 1.—*Official caution in regard to explosions of coal gas on boardship.*

THE attention of shipowners, shipmasters, colliery owners, coal brokers, underwriters, and others is directed to the conclusions with regard to explosion of coal gas arrived at by the Royal Commissioners appointed to inquire into the causes of spontaneous combustion of coal on boardship, especially to their fifth recommendation, which is as follows:—

"5. That with a view to guard against explosion, free and continuous egress to the open air, independently of the hatchways, should be provided for the explosive gases by means of a system of surface ventilation, which would be effective in all circumstances of weather."

Certificated masters and officers are especially warned that neglect on their part will, in the event of accident, be brought to the notice of the Wreck Commissioner or of the Court investigating the case.

The Board of Trade also give notice that as they are advised that vessels laden with coal, and not provided with surface ventilation, are dangerous to human life, it is their intention, under the Acts, 17 & 18 Vic., Cap. 104, section 239, and 39 & 40 Vic., Cap. 80, section 4, or any other Acts enabling them so to do, to prosecute those persons who in future send or take, or attempt to send or take, or are parties to sending or taking or attempting to send or take to sea British coal-laden ships which, on account of the absence of sufficient surface ventilation, are in such unseaworthy state that the life of any person is likely to be thereby endangered; and all persons who so neglect their duty in respect of surface ventilation as to cause danger to life or limb.

The following are the conditions of sale :—

1.—The opium will be sold for exportation by sea only, and no certificate will be granted except to cover such export.

2.—The opium will be ordinarily offered for sale at an upset price of Rs. 800 per chest, and sold to the highest bidder above that price, except under the circumstances for which provision is made by clause 13 of these conditions of sale. The bids must advance by Rs. 5 at a time.

3.—The sale shall commence at the hour of 11 A.M. of the day fixed by previous notification, and shall not be continued after the hour of 5 P.M.; but if at that hour any of the lots advertised for sale shall remain unsold, the sale may, at the discretion of the Board of Revenue, be resumed on the next day following (not being Sunday or a public holiday), at the hour of 11 A.M., and so on until the whole of the remaining lots are disposed of; or, if the whole quantity advertised shall not be sold on the day appointed, the Board of Revenue may dispose of the lots which remain on hand at a future sale.

4.—Each lot shall contain five chests.

5.—A Promissory Note for a sum, calculated according to the scale noted in the margin, shall be taken as a deposit on each lot from the purchaser in the sale-room and before the lot is registered in the sale-book, and all such Promissory Notes shall be redeemed on the part of the purchasers at this Office by Bank of Bengal receipts or by substitution of other public securities of the Government of India, on or before 3-30 P.M. in the afternoon of the fifth day after the sale, provided it does not fall on a Saturday; if it falls on a Saturday, the said notes must be redeemed by 1-30 P.M., or, on the other hand, failing such redemption by the time aforesaid, then the lot or lots for which no Bank of Bengal Receipts or deposit of other public securities as aforesaid shall have been delivered in, shall be re-sold at such time or times and under such conditions of re-sale as the Board of Revenue shall see fit; and all losses and expenses whatsoever attending such re-sale shall be borne and paid by the defaulters, whilst any profit accruing from such re-sale shall be forfeited to Government.

DEPOSIT.

When the amount bid is less than Rs. 1,800 per chest, Rs. 900 per chest.
On bids of Rs. 1,800 and upwards, but less than Rs. 1,800 per chest, Rs. 900 per chest.
On bids of Rs. 1,800 and upwards, but less than Rs. 2,000 per chest, Rs. 400 per chest.
And so on, Rs. 100 being added to the deposit for every bid additional, to the extent of Rs. 400.

6.—The said Promissory Notes shall be absolutely payable in any event, and the amount thereof shall be absolutely forfeited upon such default as before mentioned, and the amount thereof shall not go or be credited in reduction of any loss on re-sale or expenses thereby incurred, but shall be recoverable whether such re-sale shall be had or not, or whether there shall be a loss on such re-sale or not.

7.—The Promissory Notes taken on the day of sale under the fifth condition, if remaining unredeemed at 3-30 P.M. of the fifth day following the day of sale, or 1-30 P.M. if the last day falls on a Saturday, will be placed in the hands of the Solicitor to the Government for realization in such manner as to him shall seem fit.

8.—No tender of money, Bank of Bengal Receipts, or public securities, on account of opium upon which the prescribed deposit may not have been made before the prescribed time in clause 5 on the fifth day following the day of sale will be afterwards accepted. Provided always that money so subsequently tendered may be taken in payment of the said Promissory Note, but such acceptance of money shall in no way entitle the payer thereof to

any right to delivery of the lot or lots in respect whereof the said note was given, or to any of the rights of a purchaser thereof, or release the payer from liability for any unpaid balance of such notes or from the additional liability for the loss and expenses of such re-sale as provided for in clauses No. 5 and No. 6.

9.—The opium advertised for sale shall be paid for not later than by 3-30 P.M. of the fifteenth day from the day of sale, provided it does not fall on a Saturday; if it falls on a Saturday, the opium must be paid for by 1-30 P.M.; and in case any lots of such opium shall not be so paid for and adjusted, then the cash deposit made under the fifth condition, or any public securities that may have been deposited on account of such lots or chests, shall be forfeited, and the opium shall be disposed of on account of Government at such time and in such manner as the Board of Revenue shall think fit; and the first purchaser shall further be required to make good all expenses and any loss or difference of price between that obtained at the re-sale and the amount at which the opium was first purchased, forfeiting all advantages that may arise from such re-sale, and the liability for the loss or difference of price and expenses shall be in addition to, and wholly independent of, the amount of the deposit so forfeited.

10.—Purchasers taking out certificates or orders for the delivery of opium, after making full payment as above prescribed, shall have the option of naming the number of lots of their purchase, which they may desire to be included in each certificate or order; and it is to be clearly understood that the certificates or orders so taken out shall be considered final, and not afterwards changeable for other certificates or orders authorizing the delivery of single lots, or of a different number of lots or chests, whether more or less, than the number of lots or chests originally required to be included in each certificate or order.

11.—No deposit of public securities under the fifth of the present conditions will be received in this office except from the party recorded as the purchaser in the sale-book, or his authorized agent. The receipt for deposit of public securities will be granted only in the name of such purchaser, and the securities so deposited will be returned when payment in full has been made by the said purchaser or his order.

12.—The officer superintending the sale on the part of the Government is empowered to reject, at his discretion, the bid of any individual, unless such individual shall on demand tender at the time a deposit either in Government of India Notes, Bank of Bengal Receipts, or Government Securities, a sum equal to the amount for which a Promissory Note would otherwise be taken under the fifth of these conditions.

13.—With a view to prevent fictitious biddings designed to obstruct the sale, it is hereby notified that the officer of Government superintending the sale shall be competent, at any time during the sale, to withdraw any unsold lot, and immediately to put it up again for sale at a maximum upset price, diminishing the same gradually until a bid is obtained; and the first *bonâ fide* bidder for a lot after it has been offered for sale in the mode here described shall be held and declared to be the purchaser of the said lot, and the officer of Government superintending the sale shall also be competent to dispose, in the same manner, of as many of the subsequent lots as he may think proper, provided always that no lot shall be sold below the minimum price of Rs. 800 specified in the second of these conditions.

14.—The purchaser of any lot shall have the option of naming and purchasing in immediate succession, at the same price and under the same conditions, any number of lots of the same Agency opium not exceeding altogether twenty-five lots, provided always that there remain a sufficient number of lots of the opium to complete the said twenty-five.

15.—In the event of any dispute or difference touching or concerning any matter or question arising out of the sale of the opium included in this notification, or adjustment of the account thereof, the same shall and may be tried and decided in the High Court of Judicature at Fort William in Bengal.

16.—The following papers will be exhibited for inspection on the day of sale, or may be seen previously to that date by personal application at the Office of the Board of Revenue:—No. 1, certificate of the opium advertised for sale; No. 2, report of the examination of such opium.

17.—The public are hereby informed that in providing the investment of the opium manufactured at the Patna Factory and the opium manufactured at the Ghazeepore Factory for the year 1884-85, the same precautions have been taken as those which have been observed during past years to have the drug procured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the cakes, and to have the due proportion of opium put into each cake. An account of the weight of the drug when packed at the Patna and Ghazeepore Factories, and a statement of the average weight of the chests, indiscriminately taken, for the purpose of comparison, from the despatches on arrival at Calcutta, may be seen on personal application at the Office of the Board of Revenue.

18.—Any further information respecting weight or quality of the opium advertised for sale that may be desired by parties connected with the trade will, as heretofore, be furnished to them on personal application at the Office of the Board of Revenue. But, in accordance with established usage, under no circumstances will the Board of Revenue entertain or recognize any claim to compensation for loss from any alleged deficiency of weight, abstraction of opium, or adulteration of the drug, which may be preferred on reference to chests after the sale and delivery of the opium for shipment.

PART IB.

ORDERS BY THE LIEUT.-GOVERNOR OF BENGAL.

MUNICIPAL AND LOCAL.

LOCAL SELF-GOVERNMENT.

CALCUTTA, THE 21ST DECEMBER 1885.

RESOLUTION.

UNDER section 138, clause (*b*) of the Local Self-Government Act III (B.C.) of 1885, the Lieutenant-Governor is empowered to make rules for the purpose of regulating the conduct of proceedings of Boards and Committees, including the manner in which notices of a meeting shall be given, the fixing of a quorum, the due record of proceedings, and the language in which business shall be transacted. But section 32 enacts that every District Board, and every Local Board with the sanction of the District Board, may, subject to the sanction of the Lieutenant-Governor, make rules providing, among other things, for the manner in which notice of meetings shall be given, the conduct of proceedings at meetings, and the due record of all dissents and discussions. The Lieutenant-Governor therefore thinks it desirable that the rules framed by him under section 138(*b*) should be confined to points of general application, and so framed as to limit, as little as possible, the authority to make rules on the same subjects allowed by law to the Boards. The rules under clause (*b*) may be conveniently grouped with those under clauses (*c*), (*f*), (*h*), (*s*), and (*t*), which provide for matters connected with the election of Chairmen and Vice-Chairmen, correspondence, litigation, the relations of Boards and Committees with the Government, and the date on which certain meetings shall be held and statements, &c., submitted. The rules under these several clauses, therefore, will form Part IV of the complete set of rules, of which Parts I—III have already been published Part V will comprise rules under clauses (*d*) and (*e*) regulating the powers of Boards and Committees in matters of property and contract. The Lieutenant-Governor directs that, as required by section 143 of the Act, the proposed rules under clauses (*b*), (*c*), (*d*), (*e*), (*f*), (*h*), (*s*), and (*t*) of section 138 shall be published for general information in the *Calcutta Gazette*.

By order of the Lieutenant-Governor of Bengal,

J. WARE EDGAR,

Offg. Secretary to the Govt. of Bengal.

NOTIFICATION.

The 21st December 1885.—The following draft Rules, which have been framed under section 138 (*b*), (*c*), (*[illegible]*) and (*t*) of the Local Self-Government Act, are published for general information. [illegible]y will be taken into final consideration on the 20th January 1886, after which date no objections or suggestions can be received.

PART IV.

PROCEEDINGS OF BOARDS.

Quorum.

65. The quorum necessary for the transaction of business at a meeting of a Board shall be two-thirds of the total number of members of the Board, when any of the following subjects are to be disposed of at such meeting:—

For all other kinds of business the quorum shall be one-half of the total number of members of the Board.

The notice shall be accompanied, when possible, by copies or translations of important papers bearing upon the business to be discussed. 71. All questions duly submitted to a Board shall, unless otherwise provided by the Act, be decided by a majority of votes. If the votes are equal, the Presid nt shall have a second or casting vote. Provided that the President shall not have a casting vote if his own election to any office is in question, and in such case the matter shall, if the votes are equal, be decided by Government.

They shall also, within the same period, at a meeting elect one of their number to be Chairman, or request the Lieutenant-Governor to appoint a Chairman.

78. Correspondence between District Boards and the Lieutenant-Governor shall, when the District Magistrate is the Chairman of the Board, pass through the Commissioner. When the District Magistrate is not the Chairman of the Board, such correspondence shall pass through the District Magistrate, who will be guided by departmental rules in conducting it.

79. Correspondence between members of a Local Board and the Lieutenant-Governor or his officers, shall, where the area under the control of the Local Board consists of a sub-division, pass in every case through the Sub-divisional Officer. Preliminary.

Throughout this and the following Parts the term "Magistrate of the district" shall have the meaning prescribed by section 5 of the Act.

4. Any person qualified under the preceding rule, and who in addition can read and write, shall be qualified as a candidate for any ward in the Union.

Preliminary.

19. When the number of members of a Local Board has been fixed by a notification issued under section 8, the Commissioner, after consultation with the Magistrate of the district, shall decide the number of members who shall be elected for each thannah within the area of such Local Board, and shall issue orders accordingly. Such orders shall be published in the *Calcutta Gazette*, at the district and sub-divisional offices, and at the head-quarters of each of the thannahs in question; and in such other manner as the Commissioner may prescribe.

20. The first election of any Local Board under these rules shall take place at such time, not being more than six months after the Act comes in force in the districts mentioned in the Third Schedule of the Act, and after the date of a notification establishing Local Boards in any other district, as the Lieutenant-Governor shall direct.

Of the Registration of Electors.

22. In all districts mentioned in the Third Schedule of this Act, or in which a Local Board may hereafter be established, the members of which are not appointed under section 15 of the Act, the Magistrate of the district shall cause to be prepared for each thannah within the area of a Local Board a register of persons qualified to vote. Such register shall be prepared from assessment lists, from enquiries made by persons specially deputed for the purpose, and in such other manner as may appear expedient. Such register shall, from time to time, be corrected and added to as the Magistrate of the district may direct.

23. At least two months before the date fixed for the election for any thannah, a copy of the register showing the persons qualified to vote for such thannah shall be published at suitable places within that thannah. Copies of all the thannah registers shall also be published at the sub-divisional office.

24. Any person claiming the right to vote may submit to the Magistrate of the district an application in writing for the entry of his name in the register of electors, stating distinctly in what manner he is qualified; and all such applications, if made at least one month before the date fixed for the election shall be duly enquired into. A notice of the claims thus made shall be published at the thannah within one week of their presentation to the Magistrate; and all objections made to them and received at least one week before the date fixed for the elections shall be duly considered.

25. All claims to vote, and the objections thereto, shall be considered by the Magistrate of the district, and his decision shall be final.

(*c*) been possessed of a clear annual income from any source of not less than one thousand rupees.

shall be qualified for election as a member of the Local Board for any thannah under the authority of such Local Board.

28. Any elector, may for the thannah in which he is qualified to vote, nominate any qualified person as a candidate.

29. The Magistrate of the district shall, at least six weeks before the date fixed for the thannah election, issue notices calling for nominations of candidates. Such notices shall be published at every village within the thannah. All nominations shall be submitted within three weeks from the date of the publication of the notices in question. No names of candidates shall be received after the expiration of such period.

30. The Magistrate of the district shall ascertain whether all of the nominated candidates are duly qualified to take office ; his decision on this point shall be final. He shall also, if possible, ascertain whether they are all willing to take office.

31. A list of the candidates who are duly qualified, and who appear to be willing to take office, shall be published at suitable places in the thannah at least one week before the date fixed for the election. No candidate whose name does not appear in such list shall be considered eligible.

Of the manner of holding Elections.

32. The election for each thannah shall be held on such date as may be fixed by the Lieutenant-Governor and notified in the *Calcutta Gazette*.

33. The election for each thannah shall be held at the head-quarters of the thannah, or at such other place within the jurisdiction of the thannah as the Magistrate may fix. The place of election shall be publicly notified at least one month before the date fixed for election and shall be stated in the notice issued under the next rule.

34. The date fixed for the thannah election shall be duly notified at the thannah, and at such other places as may appear suitable, at least one month beforehand.

A vernacular notice in the following form shall also, at least a fortnight before the date fixed for the election, be despatched by post, or by such other mode as may be found convenient, to every elector whose name appears in the register :—

"You are hereby informed that you are registered as a voter for the thannah, and that you will be entitled to vote at the election of members of the Local Board to be held at on the 18 ."

35. An elector duly qualified under Rule 21 shall be entitled to vote for the thannah in which he ordinarily resides, and for no other. He shall be entitled to vote for as many candidates as there are vacancies for such thannah, but shall not give more than one vote for a single candidate.

36. All persons wishing to vote must be present at the election. No votes by proxy or in writing shall be received.

37. The Magistrate of the district, or such other gazetted officer as the Magistrate of the district shall depute for the purpose, shall preside at the election for each thannah.

38. The proceedings shall commence by the presiding officer explaining the nature and objects of the meeting to the assembled voters. He shall then read out the list of candidates, and state the number of vacancies.

39. Each candidate shall then be proposed by one qualified voter, and seconded by another. Subject to the control of the presiding officer on points of order, each candidate and his proposer and seconder shall be permitted to address the assembled voters on the subject of his candidature. The names of candidates not duly proposed and seconded shall be removed from the list.

40. In the case of the number of the candidates duly proposed and seconded not being greater than the number of vacancies, the presiding officer, if he is satisfied that not less than ten per cent. of the registered voters for the thannah are present, shall at once declare such candidates to be duly elected.

41. If the number of candidates duly proposed and seconded exceeds the number of vacancies, the presiding officer shall proceed to take a poll for each candidate, recording the votes with his own hand.

42. All objections to voters shall, if possible, be summarily decided by the presiding officer after reference to the register. No objections shall be entertained, other than objections arising out of matters subsequent to registration under Rule 26.

43. The presiding officer shall then and there declare such candidates as have a clear majority of votes to be duly elected. Provided that no candidate shall be declared to be duly elected unless at least ten per cent. of the registered voters of the thannah have appeared and recorded their votes.

44. If ten per cent. of the registered voters for the thannah are not present (Rule 40), or have not appeared and recorded their votes (Rule 43), the presiding officer shall report that the electors have failed under section 10 of the Act to elect the number of members for the Local Board fixed for such thannah.

45. In the case of an equal number of votes being recorded in favour of two or more candidates, all of whom cannot be returned, selection shall be made from such candidates by lot in such manner as the presiding officer shall deem fit, and thereupon a candidate thus selected shall be declared to be duly returned.

46. If any candidate, duly elected under the preceding rules, declines to take office, the unsuccessful candidate, if any, who received the largest number of votes shall be held to have been elected. If there is no unsuccessful candidate, a fresh election shall be held to fill the vacancy thus created.

47. In the event of any person being elected for two or more thannahs, such person shall be at liberty to choose which thannah he will represent, and in every other thannah for which the said person has been returned, the result of the election shall be determined under the preceding rule as if no votes had been recorded for him, and if necessary a fresh election will be held.

48. After all the thannah elections have been held, the list of candidates duly elected for the Local Board shall be forwarded to the Commissioner of the Division for publication in the *Calcutta Gazette*.

Miscellaneous.

49. No election shall be invalidated on a point of form, provided that these rules have been substantially obeyed.

50. No election shall be invalidated on account of any irregularity whatever, unless it appears that the irregularity was such as materially to affect the results of the election.

51. No person in the employment or pay of the District or Local Board shall directly or indirectly engage in canvassing for votes, or otherwise assist in the election of any candidate, otherwise than by giving his own vote. Any breach of this rule will render him liable to dismissal.

52. All costs incurred in the preparation of the register of voters, the publication of notices, the holding of elections, or taking any other necessary action under these rules, shall be payable from the District Fund.

PART III.

61. Every member of a Local or District Board, who has been elected or appointed by name, shall vacate his office at the end of three years from the date of his election or appointment as such member.

63. If any member of a Local or District Board shall be unable to complete his full term of office, the vacancy caused by his resignation or removal or death shall be filled by the appointment or election, as the case may be, of another person; and the person so appointed or elected shall fill such vacancy for the unexpired remainder of the term for which such member would otherwise have continued in office.

64. *A. Local Boards.*—As soon as possible after the expiry of the term of office of an elected member, mentioned in rules 61 and 62, or after the occurrence of a vacancy among elected members under rule 63, a date for a fresh election shall be fixed by the Lieutenant-Governor, and notified in the *Calcutta Gazette*, and rules 21 to 52 shall apply, as far as may be, to such subsequent elections.

(38) a suit the cognizance whereof by a Court of Small Causes is barred by any enactment for the time being in force.

STATEMENT OF OBJECTS AND REASONS.

THE suits cognizable in Courts of Small Causes are, subject to certain provisoes, described in section 6, Act XI of 1865, as "claims for money due on bond or other contract, or for rent; or for personal property, or for the value of such property, or for damages, when the debt; damage or demand does not exceed in amount or value the sum of five hundred rupees whether on balance of account or otherwise": and section 586 of the Code of Civil Procedure provides that "no second appeal shall lie in any suit of the nature cognizable in Courts of Small Causes, when the amount or value of the subject-matter of the original suit does not exceed five hundred rupees." Since section 6 of the Act of 1865 was enacted, a vast quantity of case-law has grown up around it, and, as the rulings of the Courts have not been uniform, doubts constantly arise on the question whether a suit is or is not a suit of the nature cognizable by a Court of Small Causes, and, consequently, whether or not, where the suit is of value not exceeding five hundred rupees and the original decree made in it was not final but was open to appeal, an appeal will also lie from the appellate decree in the suit. It appears to the Government of India that the conflicting constructions placed on section 6, of which some are due to the progress of legislation during the last twenty years (I. L. R. 3 All. 66), render a more accurate definition necessary of the suits of which Courts of Small Causes may take cognizance, and that legislation to this end should follow sections 18 and 19 of the Presidency Small Cause Courts Act, 1882, in declaring the jurisdiction of those Courts to extend to all suits of a civil nature, subject to specified exceptions. This Bill has accordingly been prepared, its primary object being to remove the doubts now felt as to the effect of section 6, Act XI of 1865; and, as several sections and parts of sections of that Act have, from time to time, been repealed and other sections are obsolete as regards both expression and utility, it has been considered desirable to repeal the Act and re-enact the substance of the extant portions of it.

2. The parts of the Bill which appear to call for remark will be noticed in the following paragraphs.

3. *Section 3.*—The limited extent of the savings in this section, as compared with section 18 of the Act of 1865, is due to the Government of India having decided to move the legislature to repeal Act XI of 1841, and connected Acts, regarding Military Courts of Requests for Native Officers and Soldiers, and so much of Bombay Regulation XXII of 1827 as relates to the trial of small suits by superintendents of bázárs in military stations in the presidency of Bombay.

4. *Section 8.*—Inconvenience has resulted from the restrictive terms in which section 15 of the Act of 1865 was drawn. It is proposed, therefore, to empower Local Governments to appoint Additional Judges without limit of time.

5. *Section 9.*—Sections 29 and 30, Act XI of 1865, appear to be little, if at all, used. It seems unnecessary, therefore, to retain them. If it is deemed desirable that two Judges should anywhere sit together as a bench for the trial of particular suits or classes of suits, a bench can be constituted under section 9 of the Bill, corresponding with section 31 of the Act of 1865.

6. *Section 17.*—This section declares the jurisdiction of a Court of Small Causes to extend to all suits, subject to certain exceptions specified in the second schedule to the Bill.

7. *Second Schedule.*—This schedule follows, with slight modifications section 19 of the Presidency Small Cause Courts Act, 1882, so far as that section goes.

8. As regards No. (11) of the suits specified in the schedule, it has been held that suits for the redemption of a mortgage of moveable property (16 W. R. 58) or for the sale of moveable property by enforcement of lien (9 W. R. 136) do not now, and (I. L. R. 7 All. 855) ought not to, lie in a Court of Small Causes.

9. The suits referred to in No. (20) are of two descriptions—

(*a*) by a decree-holder to have the right of his judgment-debtor declared to property of which the attachment has been raised; and

(*b*) by the owner of attached property, after disallowance of his objection to the attachment, either against the decree-holder or an auction-purchaser, to recover the property.

Suits of description (*a*), being suits for declaratory decrees, appear to have been held by most, if not all, High Courts not to be cognizable by a Court of Small Causes (10 W. R. 141; I. L. R. 4 Bom. 503; 3 All. H. C. Rep. 156: Punjab Record, No. 84 of 1870). As to suits of description (*b*), there is a conflict of authority (I. L. R. 7 All. 152, and cases there cited). It would seem, apart from section 6 of Act XI of 1865, that if suits of the one description

ought not to be cognizable by Courts of Small Causes, the jurisdiction of those Courts ought to be barred in respect of suits of the other description also.

10. The suits referred to in No. (30) are of superior importance, and there should be a right of appeal from decrees passed in them. The rulings at I. L. R. 3 All. 747, and in the cases there cited, were made solely with reference to the language of section 6 of the Act of 1865. Most of these suits have been excluded from the jurisdiction of Presidency Small Cause Courts.

11. As regards the suits which No. (32) is intended to exclude from the jurisdiction of Courts of Small Causes, Westropp, C. J., has observed that "the very possible necessity of varying the maintenance from time to time, and of enquiring into the circumstances of the claimant, or of the family estate, or the family itself, shows how unsuitable maintenance suits are for the Small Cause Courts" (I. L. R. 2 Bom. 630). Arrears of maintenance are usually claimed on one of four grounds—

(*a*) the legal right of the plaintiff to maintenance;
(*b*) a decree of Court;
(*c*) an award of arbitrators fixing the maintenance; or
(*d*) a special bond or other contract for the payment of maintenance.

Suits on ground (*a*) involve intricate questions of title, and those on grounds (*b*) and (*c*) have been held not to be cognizable by a Court of Small Causes (6 All. H. C. Rep. 91, and cases there cited; 3 All. H. C. Rep. 117 and 7 All. H. C. Rep. 329). Suits on ground (*d*) are at present cognizable by a Court of Small Causes. But, seeing that even in those suits questions may be raised as to re-adjustment of maintenance (5 C. L. R. 18), and possibly as to forfeiture (I. L. R. 7 Bom. 84), it seems desirable that suits for maintenance generally, including suits of the kind referred to at I. L. R. 7 Bom. 537, should be excluded from the jurisdiction of Courts of Small Causes.

12. As regards No. (33), reference may be made to 1 All. H. C. Rep. 205, and I. L. R. 1 All. 444, 2 All. 905, and 9 Cal. 183. Moreover, in suits which No. (33) is intended to cover, claims may be, and often are, included which ought not to be cognizable by a Court of Small Causes.

13. As regards Nos. (34) and (35), reference may be made to the case reported at I. L. R. 5 All. 438. It seems proper that such a suit as is there described, involving, as it may, intricate village-accounts and important questions of right, should not be cognizable by a Court of Small Causes. Moreover, the decree in the suit should be open to appeal, as ordinarily the decree of a Revenue Court would be in a suit by a recorded co-sharer against a lambardár.

14. There appears to be no sufficient reason for excluding any suits for contribution from the jurisdiction of Courts of Small Causes, except the suits referred to in Nos. (36) and (38). As to the cognizance of suits for contribution generally under the Act of 1865, there has been some conflict of authority, the High Court at Fort William holding them not to be cognizable by Courts of Small Causes (B. L. R., F. B., 675, and I. L. R. 10 Cal. 388), and the High Courts at Madras and Allahabad holding them to be cognizable by those Courts (5 Mad. H. C. Rep. 200, and I. L. R. 3 All. 66).

There would seem, apart from section 6 of Act XI of 1865, to be no sufficient ground for excluding from the cognizance of a Court of Small Causes such a suit as that reported at I. L. R. 7 All. 378.

15. No. (38) will exclude the following among other suits:—

(*a*) suits for compensation for infringing copyright (I. L. R. 6 Cal. 499);
(*b*) suits for compensation for infringing the exclusive privilege of an inventor (Act XV, 1859, section 22);
(*c*) suits against Sovereign Princes or Ruling Chiefs, or Ambassadors or Envoys of Foreign States (Act XIV, 1882, section 433);
(*d*) suits for dissolution of marriage or judicial separation (Act IV, 1869); and
(*e*) suits founded on the liability of a contributory (Act VI, 1882, section 125).

16. *Sections 19 and 34.*—As to the second proviso to section 21 of the Act of 1865, reference may be made to I. L. R. 6 Cal. 236 and 8 Cal. 287. As the law now stands, a person wishing to have a decree set aside may apply for (*a*) a new trial under section 21, Act XI of 1865, or (*b*) a review under Chapter XLVII of the Code, or (*c*) both a new trial and a review. "It is difficult," as observed by the learned Chief Justice of the High Court at Fort William, "to conceive any reasons which would justify a new trial which would not also afford good grounds for a review" (I. L. R. 6 Cal. 238). It is proposed, therefore, to replace the alternative or cumulative remedies of new trial and review by the single remedy of review, but to impose on applications for review restrictions similar to those imposed by the existing law on applications for new trial.

17. *Section 21.*—This section supplements section 223 of the Code of Civil Procedure, which extends to Courts of Small Causes. Section 20 of the Act of 1865, which the section

supersedes, appears in some places to have been construed to require a decree-holder to proceed in the first instance against moveable property even when the moveable property of the judgment-debtor is known to be of no appreciable value.

18. *Section 26.*—Under section 45 of the Act of 1865, it is the duty of the Clerk of the Court to "take charge of and keep an account of all moneys payable or paid into or out of Court" and to "enter an account of all such moneys in a book belonging to the Court to be kept by such Clerk for that purpose." The terms of that section have been held to preclude the transfer of the duty of receiving moneys and keeping accounts in a Court of Small Causes to the special staff of accountants which in some provinces is employed at the head-quarters of each district to receive and account for moneys paid into the Civil Courts located there. It has been provided in section 26 of the Bill that the High Court may, if it sees fit, relieve the clerk of the Court of his duties as cashier and accountant.

19. *Section 32.*—The High Court for the North-Western Provinces has held (5 All. H. C. Rep. 55) that section 51 of the Act of 1865 does not authorise the Local Government to permanently and unconditionally invest the Judge of a Small Cause Court with the powers of a Principal Sadr Amín, and that the section only contemplates an occasional investment of the powers, and one contingent on the state of the business of the Court. Under section 32 of the Bill the question will not again arise.

20. In sections 32 and 33 regard has been had to I. L. R. 8 Bom. 230, 9 Bom. 237, 1 All. 87, 1 All. 624, and 3 All. 710. It has been made clear that, for the purposes of sections 223 and 295 of the Code of Civil Procedure and section 21 of the Bill, the Court of a Judge of a Court of Small Causes when the Judge is acting as such, and the Court of the same Judge when the Judge has been appointed to be and is acting as a Subordinate Judge, are different Courts, and that, for the same purposes, the Court of a Subordinate Judge when the Judge is acting as such, and the Court of the same Judge when the Judge has been invested with the jurisdiction of a Court of Small Causes and is exercising that jurisdiction, are different Courts.

21. The first proviso to section 21 of Act XI of 1865 has been omitted because its retention has been rendered unnecessary by the extension of section 108 of the Code of Civil Procedure to Courts of Small Causes.

22. Section 52 of the Act of 1865 has been omitted, as it is believed not to be used.

23. It is proposed by the first schedule to make section 648 of the Code of Civil Procedure, which extends to the Presidency Small Cause Courts, extend also to Provincial Courts of Small Causes.

24. It is proposed by the same schedule to repeal so much of the second schedule of the Code of Civil Procedure as extends sections 121 to 136 of the Code to Provincial Courts of Small Causes. These sections do not extend to Presidency Small Cause Courts, and their provisions, which contemplate elaborate and lengthened trials in suits of superior importance, are incompatible with the speedy disposal of the petty suits cognizable by a Court of Small Causes. The want of the sections is not likely to be really felt in Courts of Small Causes, while their application to those Courts is not unlikely to be taken advantage of for the purpose of delaying proceedings.

25. So much of sections 137, 447, 453, 454 and 456 of the Code of Civil Procedure as requires applications to Courts of Small Causes to be supported by affidavit is proposed to be repealed. Chapter XVI of the Code, respecting affidavits, does not extend to Provincial Courts of Small Causes.

In interpreting many parts of the Koran, some Muhammadan sects reject the plain meanings of the words used therein and attach other meanings to them. This practice is condemned by other Muhammadan sects, who consider it improper to take the words used in the Koran in any other than the sense which they ordinarily bear. The writer of this tract holds this latter opinion, which he has accordingly explained and illustrated.	9

Mar., 9th	10	12mo dy.	1st ...	1,000	ditto ...	0 0 6	Matilál Basu, 202, Cornwallis Street, Calcutta.	The two friends in this story are two schoolboys. Feb., 11th	46	12mo ...	1st ...	1,000	ditto ...	0 3 0	.....	The principal characters in this farce are some young Bengali Brahmos and Anglicised Babus, one of whom elopes with a friend's wife, and another, who is already married, endeavours to marry another girl who has been stolen away from her parents by her own maternal uncle. The author intends to say that modern Bengali enlightenment means the imitation of English habits and manners and indulgence in the worst vices under cover of the Brahmo name.	4082
May, 8th	26	12mo dy.	1st ...	500	ditto ...	0 8 0	Ashutosh Basu, Calcutta.	An incestuous connection between two cousins, which is considered to be owing to *Kulinism*, the great stain upon Hindu society in Bengal, is described in this work. The connection between the crime and *Kulinism* is not, however, quite clear.	4083
„ 5th	22	12mo ...	1st ...	500	ditto ...	0 1 0	Nanilál Dás De, Calcutta.	Some Bengali schoolboys, who deceive their simpleminded parents by making them believe that they are well-behaved and attentive to their studies, indulge in debauchery of the worst kind, and are taken up by the police in a row which they create at the house of a public woman.	4084
Mar., 10th	18	12mo ...	1st ...	1,000	ditto ...	0 2 0	Matilál Basu, 202, Cornwallis Street, Calcutta.	Two Bengali schoolboys, who whilst apparently engaged in reading for a University examination, are really busy concerting measures for running away with a young widow.	4085
April, 8th	36	12mo ...	1st ...	3,000	ditto ...	0 2 0	S. C. Sen and Brothers, 112, Upper Chitpur Road, Calcutta.	A Bengali Babu, who has obtained the title of Rajah Bahadur by spending much money, is constrained to borrow more money in order to live in a style befitting a holder of that title, and is therefore soon reduced to a situation of great difficulty and ignominy. The author means to insinuate that a title is not a distinction but an encumbrance, and seekers and holders of titles are very foolish and worthless men.	4086
